

Embracing the world beyond Korea,
be a Global Leader!

President's Message

Chonnam National University is going to leap forward through its mottoes of "Educational Innovation, Creative Research, and Open Communication."

CNU has been playing a pivotal role in bringing justice and prosperity to Korea with its spirit of truth, creation, and service since its establishment in 1952. Both knowledge and wisdom, which are created at CNU, have been the cornerstone for Korea to grow from a small and unknown country into what it is today. CNU has also proudly served as a Mecca of Korea's history on human rights, sharing the agony of time with people.

CNU is going to stand at the forefront in realizing a new zeitgeist. It will become a university that overcomes challenges from rapid global change and leading the knowledge-based society. The ultimate goal is to become a university of human resource development and knowledge creation.

CNU fully opens its wings to realize educational innovation, creative research, and open communication. It is going to fulfill its responsibility to invest with strong trust in students' potential and to cultivate them into global talents with better capacity by the time they graduate. Students will also enter through a demand-based and globalized education.

CNU is going to provide a better environment and infrastructure for the faculty members to conduct research in free and enjoyable ways, which will return with an innovative research performance that leads the future, the nation, and the world. CNU will combine the potential and competence of internal members to pave the ways for better development and to build a strong tie with the local community that shares destiny together with the university. CNU will give hope for the local development.

CNU appreciates warm affection and interest, support, and wisdom from all of you. Thank you very much.

The President of Chonnam National University *Jeeluyung Moon*

University Overview

Administration President, Vice President, 4 Dean's Officers, 1 Headquarters, 5 Offices, 14 Departments, 2 Rooms, 2 Teams

- Organization**
- **Education** 16 Colleges, 1 Graduate School, 5 Special Graduate Programs, 5 Professional Graduate Schools
 - **Administration** Office of Academic Affairs, Office of Student Affairs, Office of Research-Industry Cooperation, Office of Planning, Office of University Provost, Admissions Headquarters, Office of International Affairs, Department of Finance Management, Office of Education Affairs, Office of Administration Support
 - **University Facilities** Institute of Interdisciplinary Human Resources Education, Institute of Liberal Arts Education, Library, University Museum, Language Education Center, Dormitory, Information Computing Institute, and nine other facilities
 - **Affiliated Schools** Affiliated Middle and High schools with College of Education
 - **Research Organization** 108 Research Centers and Institutes
 - **Foundation and Miscellaneous** University Development Foundation and eight other foundations

Students 35,779

- Faculty**
- Full-time Faculty 1,174
 - Endowed Professors 75
 - Adjunct . Guest . Visiting Faculty 266
 - Instructors 778

Teaching Assistants 242

Employees 628 members

University Site	Buildings
11,171,862 m ²	231
Library Facilities	
1,558,294 Books	
11,939 Domestic and International Academic Journals	

(As of April 2013)

Innovative Education · Creative Research · Open Communication **The Soaring Chonnam National University**

Education of Global Talents

- To invite excellent students for admission
- To increase job-employment rate
- To provide more demand-based education system
- To boost international education programs

Top 5 Domestic Research-oriented University

- To innovate research support system
- To vitalize graduate schools
- To foster next generation for academy and science
- To promote research capacity

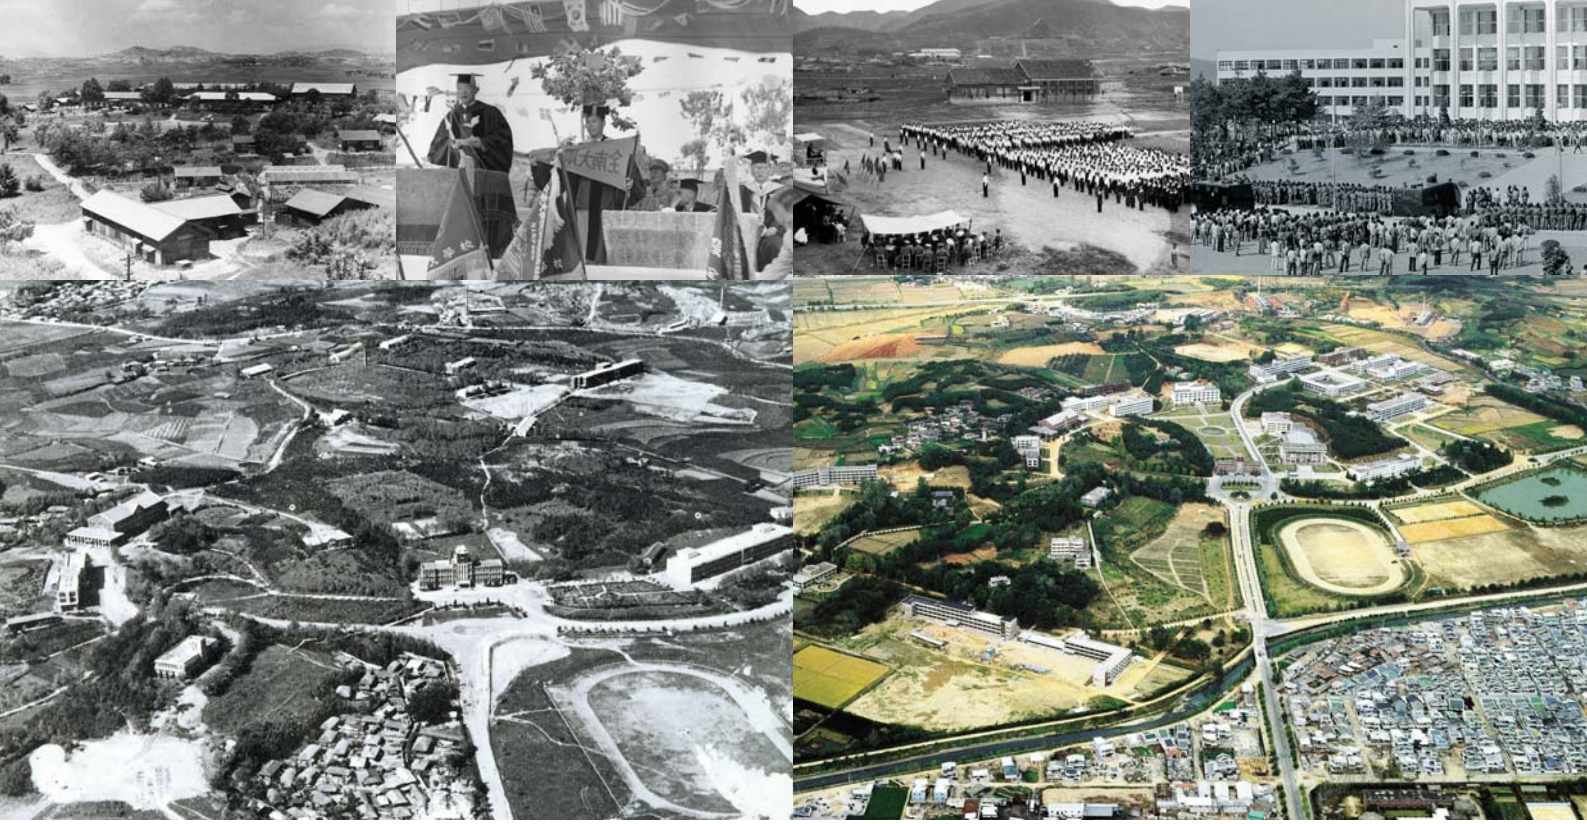

Contributions to the Local Society

- To strengthen cooperation with local autonomous organizations
- To develop more social volunteering programs

Democratic Governance

- To establish decentralized administrative system
- To strengthen ownership in education and research
- To grow negotiating ability with external partners

History

To look at the past is to look at the future

1909 >>> 1951

- Jun. 10, 1909 Gwangju Agricultural School established.
- Jun. 1920 Mokpo Commercial School established.
- Mar. 31, 1944 Gwangju Medical School established.
- May. 5, 1950 Graduate School (Department of Medicine) authorized.
- May. 27, 1950 Provincial College of Gwangju Elementary Agriculture and Provincial College of Mokpo Elementary Agriculture authorized.
- Aug. 1951 Daesung School (private Daesung college) authorized.
- Sep. 16, 1951 Founding Committee of CNU organized.
- Oct. 6, 1951 Establishment of CNU authorized.
- Dec. 1, 1951 CNU Temporary Office opened at Gwangju Medical College

1952 >>> 1969

- Jan. 1, 1952 CNU launched (College of Engineering, College of Agriculture, College of Liberal Arts and Sciences, College of Commerce and Medical College).
- Jun. 1, 1952 1st President, Sangchae Choi, inaugurated.
- Jun. 9, 1952 Opening ceremony of CNU held. Graduate School opened.
- Nov. 15, 1952 University Official Anthem enacted
- Jan. 21, 1953 University Rules and Regulation enacted
- Mar. 26, 1953 1st Degree Awarding Ceremony held
- Sep. 15, 1953 University Library opened.
- Feb. 7, 1954 College of Law established.
- Apr. 1, 1954 University Press established.
- Apr. 28, 1959 2nd President, Sang-chae Choi, inaugurated.
- Aug. 29, 1960 3rd President, Ha-wook Pak, inaugurated.
- Sep. 9, 1961 College of Agriculture and Commerce dissolved according to government-imposed University restructuring. Gwangju Education College reorganized into CNU Education College.
- Dec. 2, 1961 Student recruitment at College of Engineering ceased and College of Agriculture reestablished according to government-imposed University restructuring.
- Mar. 13, 1962 4th President, Jun-bo Kim, inaugurated.
- Mar. 1, 1963 Departments of Civil Engineering, Architectural Engineering, and Electrical Engineering in College of Engineering reestablished.
- Mar. 6, 1963 Departments of Commerce and Economics in College of Commerce reestablished.
- Mar. 10, 1963 Gwangju University of Education separated from CNU Education College.
- May. 15, 1965 5th President, Ha-wook Pak, inaugurated.
- Feb. 19, 1969 Graduate School of Business Administration established.
- May. 21, 1969 6th President, Gi-choon Yu, inaugurated.

1970 >>> 1979

- Mar. 1, 1972 College of Education established.
- Mar. 1, 1973 Pilot College Program started with College of Education and College of Commerce.
- May. 21, 1973 7th President, Gi-choon Yu, inaugurated.
- Mar. 1, 1974 Pilot College Program expanded to include Colleges of Engineering, Agriculture, and Liberal Arts and Sciences.
- Dec. 9, 1974 8th President, Jun-shik Min, inaugurated.
- Jan. 15, 1975 Pilot College Program expanded to include College of Law.
- Mar. 10, 1975 Graduate School of Education opened.
- Nov. 5, 1975 CNU Middle School established under College of Education.
- Jul. 11, 1976 CNU High School established under College of Education.
- Dec. 9, 1978 9th President, Jun-shik Min, inaugurated.
- Jan. 1, 1979 College of Engineering reorganized into College of Chemical Engineering with nine departments.

CNU will become the foothold for brighter future together with its long history and tradition from the foundation.

1980 >>> 1999

- Mar. 1, 1980 College of Liberal Arts and Sciences divided into College of Humanities & Social Sciences and College of Natural Sciences. Graduate School of Public Administration established.
- May. 18, 1980 5.18 Gwangju Democratic Movement held at the CNU main gate.
- Jun. 12, 1980 10th President, Hang-gi Oh, inaugurated.
- Mar. 1, 1981 College of Dentistry established. Colleges of Commerce renamed as College of Business Administration.
- Mar. 1, 1982 Colleges of Arts and Pharmacy established.
- Jun. 12, 1984 11th President, Deuk-gyu Jung, inaugurated.
- Aug. 1, 1984 12th President, Young-in Kim, inaugurated.
- Mar. 1, 1987 College of Humanities and Social Sciences reorganized into College of Humanities and College of Social Sciences.
- Mar. 1, 1988 Department of Veterinary Medicine in College of Agriculture promoted to College of Veterinary Medicine.
- Aug. 17, 1988 13th President, Byung-mun Oh, inaugurated.
- Oct. 29, 1988 Departments of Home Management, Food and Nutrition, and Clothing and Textiles in College of Natural Sciences reorganized into College of Home Economics.
- Mar. 1, 1989 Graduate School of Industry and Technology established.
- Aug. 17, 1988 14th President, Han-sun Choi, inaugurated.
- Mar. 28, 1993 University Hospital authorized as a public corporation.
- Aug. 22, 1994 National Engineering College project selected CNU College of Engineering as its key recipient in the automotive engineering field.
- Aug. 17, 1996 15th President, Sung-man Noh, inaugurated.
- Dec. 10, 1996 5.18 Institute established.
- Dec. 27, 1996 Social Education Center opened.
- May. 20, 1999 Oh! Yes Center (comprehensive service center) opened.
- Sep. 1, 1999 CNU selected as a host university of Brain Korea 21 national research project (12 research teams assigned).

2000 >>> 2010

- Aug. 17, 2000 16th President, Suk-jong Jung, inaugurated.
- Mar. 1, 2002 Colleges of Home Economics, Agriculture, and Liberal Arts renamed as the Colleges of Human Ecology, Agriculture & Life Sciences, and Humanities, respectively. Social Education Center renamed as School of Lifelong Education. Dormitories renamed as student residence halls.
- Sep. 9, 2003 School of Biological Sciences and Technology established.
- Aug. 17, 2004 17th President, Jung-chaee Kang, inaugurated.
- Mar. 1, 2005 Department of Nursing Sciences promoted to College of Nursing. College of Dentistry closed and Graduate School of Dentistry established. Office of Student Affairs (Human Resource Development Center) and Office of Planning and Cooperation (Office of Public Relations) established.
- May. 18, 2005 5.18 Memorial Hall opened.
- Mar. 1, 2006 Yeosu National University merged with CNU. College of Natural Sciences in Yeosu National University closed. College of Engineering and College of Humanities & Social Sciences at Yeosu campus reorganized into College of Engineering Sciences and College of Culture & Social Sciences, respectively. Graduate School of Fisheries and Ocean Sciences in Yeosu Campus and Graduate School of Culture opened.
- Mar. 1, 2007 Graduate School of Business Administration reorganized into Graduate School of Business.
- May. 26, 2008 Yongjii Hall opened.
- Aug. 17, 2008 18th President, Yoon-soo Kim, inaugurated.
- Aug. 15, 2008 Student Residence Hall constructed by BTL project completed.
- Nov. 17, 2008 National University Dental Hospital opened.
- Mar. 1, 2009 Law School and Medical School opened.
- Mar. 3, 2010 Expanded Education Development Institute-Renamed the Institute of Liberal Education
- Sep. 9, 2010 Selected as a model female for the ROTC program
- Oct. 6, 2010 Opening of the Jindo Center of Learning about Nature

2011 >>>

- May. 20, 2011 CNU Technology Holdings Co. Ltd. established
- Jan. 1, 2012 Leading University Project Group for Intellectual Property opened
- Jun. 8, 2012 60th Anniversary
- Jun. 27, 2012 University History Hall opened
- Aug. 14, 2012 "CNU in 60 Years of History" published
- Dec. 21, 2012 Current President Jee Byung-Moon Inaugurated
- Mar. 1, 2013 Interdisciplinary Human Resources Education Center established

College of Nursing

The Department of Nursing, under the vision of fostering global nursing professionals and creating new jobs, aims to grow nursing professionals who can maintain and increase personal health condition, help prevent, recover, and rehabilitate illness, and react to various health and medical environmental changes. Nursing is a practical science, combining research and practice, that aims to help human maintain stable status-quo from mutual activity with environment by diagnosing, planning, mediating, and evaluating health issues of individuals, families, and local society.

| Department of Nursing

College of Business Administration

The College of Business Administration aims to foster creative global leaders who are equipped with professional knowledge and work skills in business and the economy. In order to achieve this goal, the College of Business Administration promotes globalization, institutionalization, and utilization of projects through which students can develop their intellectual, professional, and communicative skills as well as work ethic and service leadership.

| School of Business Administration
| School of Economics

College of Engineering

The college runs a global quality demand based education program that aims to grow engineers with creative problem-solving ability, adaptiveness to sites, and engineering ethics who can contribute to the human prosperity. The college is certified with ABEEK: Accreditation Board for Engineering Education of Korea. It also partnered with Samsung Electronics, LG Innotek, Hynix Semiconductors, Kumgo Electronics, and other companies with good opportunities for employment, and has expanded its tracks to grow engineers with field perspective through site practice, projects, and engineering design courses.

| School of Electronics and Computer Engineering
| School of Applied Chemical Engineering
| Department of Civil Engineering
| Department of Energy and Resources Engineering
| Department of Environmental Engineering
| Department of Polymer and Fiber System Engineering
| Department of Industrial Engineering
| Department of Electrical Engineering

College of Engineering Sciences

The College of Engineering in Yeosu Campus aims to train creative and field-oriented engineers, skilled technicians and globalized talents by promoting ABEEK accreditation. To this end, the College has established a wide range of programs, delivered practical lectures and given students more opportunities to take part in academic-industrial cooperation research.

| School of Electrical, Electronic Communication and Computer Engineering
| School of Mechanical Design Engineering
| School of Biotechnology and Chemical Engineering
| Department of Marine and Civil Engineering
| Department of Environmental System Engineering
| Department of Refrigerating and Air Conditioning Engineering
| Department of Architecture
| Department of Applied Mathematics

College of Agriculture and Life Sciences

The College of Agriculture and Life Sciences is firmly rooted as a mecca of future biotechnology industry and environmentally-friendly agricultural technologies. The College is leading the planning, design, management and commercialization of new infrastructure demanded by the course of Rural Reconstruction. It also trains graduates to be armed with theoretical and practical skills that enable them to develop agricultural production technology and effectively utilize agricultural resources.

| Division of Plant Biotechnology
| Division of Forest Resources
| Division of Applied Bioscience and Biotechnology
| Division of Animal Science
| Department of Landscape Architecture
| Department of Agricultural Economics
| Department of Rural and Bio-systems Engineering
| Department of Bioenergy Science and Technology

College of Culture and Social Sciences

The College of Culture and Social Sciences is heightening its global status in the areas of International Studies, International Business, Culture Content and Visual Communication Design. Yeosu's geographical and industrial setting - the heart of the Gwangyang Bay area and the free economic zone - has paved the way for recent developments.

| Division of International Studies
| Division of Business and Commerce
| Division of Culture Contents
| Department of Visual Information Design

College of Education

The college purports to grow educational perspectives and attainments of students to become capable teachers in this globalized society. Graduates can become middle school teachers with relevant regular teacher certificate, or can work at various professional organizations related to education.

- | Department of Home Economics Education
- | Department of Music Education
- | Department of Physical Education
- | Division of Special Education

College of Social Sciences

Graduates of the College of Social Sciences are characterized by their commitment to serving society and tackling greater social issues through a scientific approach to social activities and phenomena. These professionals work for better communication between members of society. The College of Social Sciences takes pride in its prominent professors and effective curriculum that integrates both theoretical and practical education, focusing on experiments, on-the-job training and field trips.

- | Department of Political Science and International Relations
- | Department of Sociology
- | Department of Psychology
- | Department of Library and Information Science
- | Department of Communication
- | Department of Geography
- | Department of Anthropology
- | Department of Public Administration

College of Human Ecology

Based on traditional family values, CNU's College of Human Ecology fosters talented personnel for the modern industrial world by providing education on state-of-the-art science and technology. By connecting theory to experimental practices and field training, students are offered sophisticated knowledge and able to readily apply that knowledge in the field. The College is also currently providing students with more opportunities to work overseas.

- | School of Food and Nutrition Science
- | Department of Family Environment and Welfare
- | Department of Clothing and Textile

College of Fisheries and Ocean Sciences

The College of Fisheries and Ocean Sciences was founded in 1917 as Yeosu Public Miniature Fisheries School. The Ministry of Maritime Affairs and Fisheries designated the College as a specialized institute (Aquaculture and Marine Environment area). Along with its long tradition, the College has developed into a mecca of education and research of maritime affairs and fisheries. The College has also been training professionals to develop marine resources and advanced technologies.

- | School of Marine Technology
- | Department of Ocean Bio-Food
- | Department of Aqualife Medicine
- | Department of Maritime Police Science

College of Veterinary Medicine

Veterinary medicine involves the diagnosis, prevention, and treatment of animal illnesses and disorders in farm animals such as cows, pigs and chickens, experimental animals, companion animals, aquatic animals, wild animals and invertebrate animals. The discipline further embraces basic life science that includes the course of life for both humans and animals.

- | Department of Pre-veterinary Medicine
- | Department of Veterinary Medicine

College of Pharmacy

The school teaches theories and professional knowledge of drugs to grow professionals who can contribute to increased mankind welfare. The school revised its curriculum to six year(2+4) program, while attending more focus on clinical practice.

- | Department of Pharmacy

College of Arts

At a time when the importance of culture and art is ever growing and Gwangju is transforming itself into a cultural hub city, CNU's College of Arts provides an intellectual and artistic infrastructure necessary to maintain Gwangju's cultural assets. The College of Arts is attracting public attention as it produces talented art performers, educators, producers, artists, and curators.

- | Department of Fine Arts
- | Department of Music
- | Department of Korean Traditional Music

Medical School

As students are expected to take care of human life, the College of Medicine aims to instill virtues into students and foster doctors who study the

fundamental truth of medicine, prevent and treat diseases, and ultimately contribute to improving the well-being of people. The college also aims to nurture medical scientists who lead medical development.

- | Department of Pre-medicine
- | Department of Medicine

College of Humanities

The College of Humanities has played a pivotal role in redefining Gwangju as a city of democracy and human rights as well as developing the city into a cultural hub. Humanities serving as an academic and spiritual footing have cleared the way for Gwangju's transformation. The College helps students expand their creative and logical capacity. Students lead a fruitful college life by joining reading and job clubs as well as art and culture events.

- | Department of Korean Language and Literature
- | Department of English language and Literature
- | Department of German language and Literature
- | Department of French language and Literature
- | Department of Chinese language and Literature
- | Department of Japanese language and Literature
- | Department of History
- | Department of Philosophy

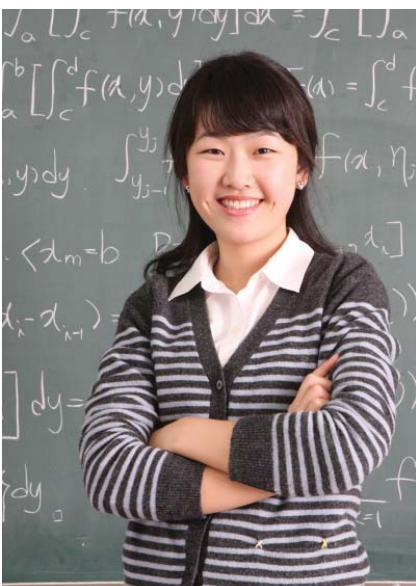

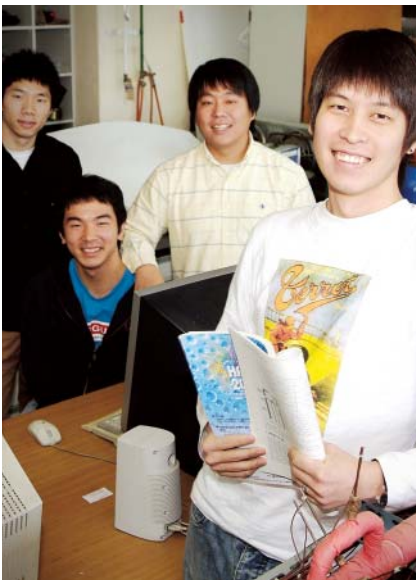

College of Natural Sciences

The College of Natural Sciences focuses on natural science education and research. The College fosters outstanding scientists and researchers who create new knowledge that boosts national competitiveness. It also plays an integral part in the development of basic and applied sciences.

- | School of Biological Sciences and Technology
- | Department of Mathematics
- | Department of Statistics
- | Department of Physics
- | Department of Chemistry
- | Department of Biology
- | Faculty of Earth System and Environmental Sciences

School of Self-designed Interdisciplinary Studies

Self-Designed Interdisciplinary Studies (SDIS) aims to grow talents with creative problem-solving, critical thinking, and logical communication abilities by providing cross-field education. SDIS has two courses; one is Self-designed Studies Track (SST) and the other is General Studies Track (GST). Students within SST follows a curriculum mainly based on humanities and social sciences with a double or minor degree from a department mandatorily. Students within GST can select department after finishing the first year. Students can continue study at graduate schools, law school, MBA home and abroad, or can work at/in research institutes, field of academia, journalism, publication, culture, business, and others.

Graduate School

Graduate students in master's and doctoral programs play a pivotal role in improving the research capacity of CNU and in proposing a new vision for the local industry. 29 departments in Humanities and Social Sciences, 26 departments in Natural Sciences, 12 departments in Engineering, 4 departments in Arts, 3 departments in Medical Sciences and 30 departments in Interdisciplinary Programs have master's and doctoral programs at the Gwangju campus. 5 departments in Humanities and Social Sciences, 7 departments in Natural Sciences, 13 departments in Engineering and 4 departments in Interdisciplinary Programs provide master's and doctoral programs at the Yeosu campus.

Interdisciplinary Program Digital Convergence, Marine and Fisheries Policy, Climate Change & Coast and Shore Management Track (Master's), East Asia Studies (Master's)

Graduate School of Education

CNU's Graduate School of Education offers majors and educational theories and also helps students develop problem-solving skills for various challenges they will face at schools and in classrooms. The Graduate School of Education enables in-service and preliminary teachers to self-develop and expand their professional teaching skills and ultimately serve as pillars of Korea's public education system. <http://edutop.jnu.ac.kr>

Graduate School of Industry and Technology

The Graduate School grows well suited professionals to industry with practical research competence. Graduates are grown into global leaders who can lead the technology advancement of industry. <http://eng.chonnam.ac.kr/?r=industry>

Graduate School of University-Industry Cooperation (Yeosu)

The Graduate School of University-Industry Cooperation fosters highly skilled and creative technicians by providing practical education in industrial technology. <http://ieccu.chonnam.ac.kr>

Graduate School of Fisheries and Ocean Sciences (Yeosu)

CNU's Graduate School of Fisheries and Ocean Sciences contributes to the national development of the fishery industry by nurturing maritime and fisheries specialists armed with leadership and creativity. <http://gradsea.chonnam.ac.kr>

Graduate School of Public Administration

The Graduate School of Public Administration promotes research and instruction of theories and applications in the area of public administration and related disciplines. The programs provided produce competent public administrators in this highly industrialized society. <http://cnugpa.kr/>

Professional Graduate Schools

School of Business

As the first professional graduate school of business outside of Seoul, the CNU MBA aims to foster competent business professionals who lead industrial development beyond the Gwangju and the Jeonnam regions.

The CNU MBA admits 100 persons in two kinds of programs. The Pan-Asia Capstone MBA is a full-time, weekday program. The Pan-Asia Capstone Executive MBA is an evening or weekend program for those currently working or with work experience.

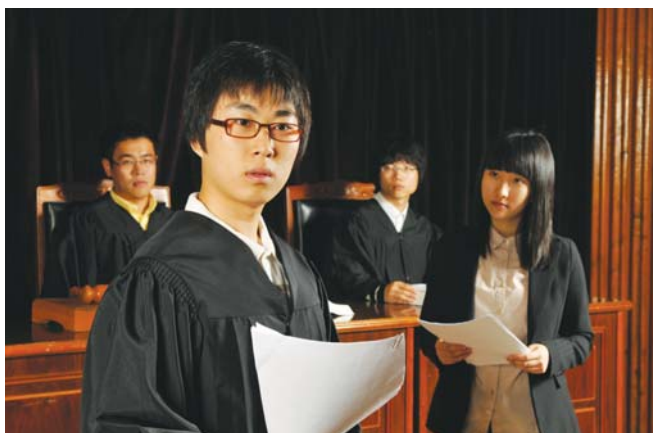

<http://mba.chonnam.ac.kr>

Graduate School of Culture

CNU Graduate School of Culture, the first of its kind nationwide, cultivates leaders with creativity and speciality in culture who will guide the Dream Society.

There are three majors : Culture and Art Theory, Culture Management and Tourism, and Media Art Engineering. Affiliated research centers in Ecology Tourism, and Local Culture are also within the school. It selects 30 students a year, regardless of one's major/study at the undergraduate level.

<http://culture.chonnam.ac.kr>

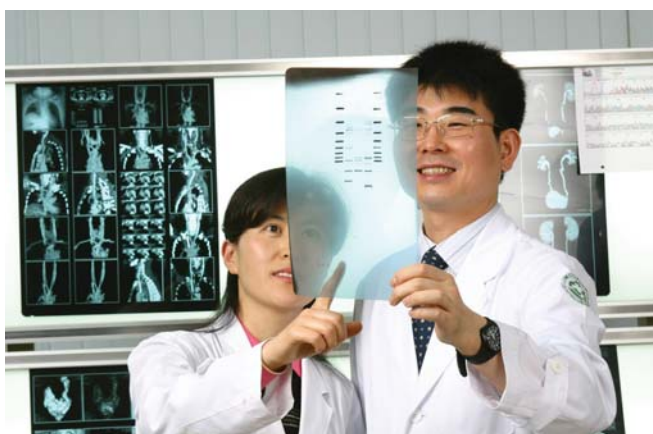

School of Law

The School of Law emphasizes public interest and human rights and aims to cultivate global legal experts with professional knowledge and experience.

Established in March, 2009, the School of Law annually admits 120 students including 40 students from non-prelaw majors and 40 students from other universities. 10 percent of the quota is admitted through a special screening system among socially disadvantaged groups.

<http://lawschool.chonnam.ac.kr>

Medical School

The CNU Medical School aspires to produce true medical personnel who have the proper personality and morality as doctors and are willing to contribute themselves to the wellbeing of humanity by studying the fundamentals of medicine.

The School of Medicine admits 63 students: 34 students are admitted through a nonscheduled admission process (local applicants with good grades among those who graduated from universities outside of Gwangju or the Jeonnam areas, applicants with good grades among those who graduated from universities in Gwangju or the Jeonnam areas, self-promoting applicants) and 29 students from a scheduled screening system.

Graduate School of Dental Science

Graduate School of Dentistry is a renowned school in the field which fosters highly qualified dental professionals of the next generation with philosophy focused on humanism. Superb faculty provides advanced education program that combines theories with clinic courses. Also, the school grows global talents through its wide network with renowned dental schools home and abroad.

The Graduate School of Dentistry allocates 30 students among 70 from graduates from high schools in Gwangju and Jeollanam-do through special admission and CNU graduates through regular admission. Scholarships are offered to those who study in the master's-doctoral integrated program. It will invite 35 undergraduate students for undergrate-master's integrated program.

Attached Facilities

Interdisciplinary Human Resources Education Center

The Career and Professional Development Center helps students to become interdisciplinary human resources to work where they fit into as the current society demands. The center offers guidelines to design each student their own future in an early stage on students' aptitude, interests, character, and beliefs. Also, it provides information and useful programs for job employment. The center is composed of a job-employment center, future design center, and gender equality center. (<http://capd.jnu.ac.kr/>)

Library

The CNU library consists of the main library, an annex, and a separate building. In total, the library houses 1.5 million books, 71,000 periodicals (including online DB and e-journals), and other multimedia data, while providing spacious halls and about 4,700 seats for students. It also introduced new information technology, such as online DB and e-book, innovating into e-library to meet the era of knowledge and information.

Language Education Center (LEC)

The center provides systematic foreign language education programs to enhance university competence and improve student's language proficiency in the era of globalization. A variety of courses including English conversation with native speakers, intensive programs during vacations, English for job-employment, and other languages such as Chinese, Japanese, and Spanish are provided. It also runs specialized programs for the Korean Teacher Education and Korean courses for foreigners.

Institute of Liberal Education

The institute consists of sub-centers, each to support "Teaching and Learning", "General Education", and "E-learning". It develops and runs various programs to enhance teaching ability of professors and learning of students, to strengthen liberal education and interdisciplinary education.

Student Residence Halls

The Student Residence Halls provide housing and board for 4,000 students at the Gwangju Campus and 966 at the Yeosu Campus. They are equipped with computer labs, study halls, student lounges, laundry rooms, cafeterias, convenience stores and group study rooms. They also provide self-development programs.

Sports Center

The CNU Sports Center opened in 2006. Students can enjoy various sporting activities including golf, yoga, jazz diet, badminton, dance, sports and pilates. It also runs physical fitness assessment rooms to provide tailored exercise service depending on age, health condition, disease/illness and physical capacity. Exercise prescription experts manage an obesity clinic to help students enjoy their free time and maintain their physical health.

Academic Exchanges with Foreign Universities

About 240 universities in 40 countries

Global CNU Toward Asia and the World

Fostering Global Leaders with International Perspectives

Fluent English on CNU Campus!

- General English Program at LEC (Language Education Center)
: Basic English, English for Global Communication 1 • 2, Textual Exposition, English for Job Search
- Native Speaker Conversation Program : Level 1 through 6
- Specialty Programs
: Grammar in Use, Easy Listening!, VOA News English, Academic Writing, Essay Writing for Middle School Level English Teacher Certification Exam, English Grammar for Conversation, Sitcom English

Building International Campus

- To establish overseas CNU center and offices
 - To expand 2+1+2 courses with foreign universities to invite international students
 - To expand double degree programs in graduate schools
 - To provide more overseas programs to grow global perspectives
 - To provide more Korean language training for international students
- Number of foreign students (As of March 2013)-
Number of foreign faculty members (As of March 2013)-

Number of foreign students

Number of foreign professor

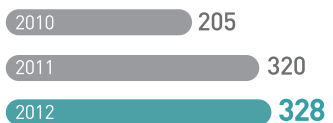

Various Globalization Programs

- Strengthen Foreign Language Competency: General English and Foreign Language Programs
- Exchange Student: attending regular courses at overseas sister universities
- Globalization course: earning credits from language courses in English, French, and German speaking countries
- International Internship: growing job competence from practice and experience in university, business, and civil society
- International Summer Session: attending vacation semester with foreign students from sister universities and taking class from invited international faculty
- International Winter Session: Program on mutual learning of language and culture with students from sister universities in Japan
- Freshman Guide: one on one matching program with international students

Contribution to Globalization of Local Society

- To grow human resources for international events
- To produce GFN (Gwangju Foreign Network) programs
- To strengthen English competence of English teachers in the local society

Status on exchange students abroad

GLOBAL CNU

- Business Incubator Center

►Core Projects

- LINC (Leaders in Industry-university Cooperation) Project
- World-renowned Research Institute Project: two centers/University Pivotal Research Institute Support Project: three centers
- Leading Research Center Support Project (Medical Science): two centers/HK Project
- World Class University (WCU) Project: three project groups/Leader Researcher Support Project
- Regional Research & Development Cluster Building Project/Fisheries and Oceanography Research Center

►On-campus Research Promotion Project

1. Academic Activity Support Project
 - Support of academic research fund and research year/Support of overseas research activity
 - Support of academic journal and book publication, and English proofreading for SCI-level papers
 - Support of academic gatherings and participation for paper presentation
 - Support of exhibition and presentation in arts and physical studies
2. Excellent Research Performance Support Program
 - Support of research funding and awards to excellent researchers/Support of paper publication fee on academic journals
 - Support of registration fee of intellectual property
3. Support program on building research foundation
 - Support of preparatory research foundation/Support of development budget on external research projects

Young Intellectuals

with Vision and Passion

Aha! Learning Community

- "Gongbu-Ilchon" (Study-kin): Spontaneous learning group among peer students
- "Hanwul-Hakseup" (Co-learning): Learning group among leading upper year student and following lower year students
- "Nuriduri" (World-tying): Learning group among domestic and international students
- Program: More than two hours study a week (eight week program for each semester)

Freshmen-Professor Seminar: Teaching and Learning for Mutual Growth

- Gathering together among freshmen and professors to learn about majors and become more adaptive to campus life
- Regular activity with bi-weekly meetings

Excellent Students Growth Program with Strong Potential: President Honor Students (PHS) Program

- Specialized education program aiming to grow interdisciplinary intellectuals
- Programs : Cross-field special lecture and discussion, self-leading study ability growth project, domestic and international volunteering activities, Special English Education, free debate on reading, portfolio design, domestic and international project proposal exploration, and others

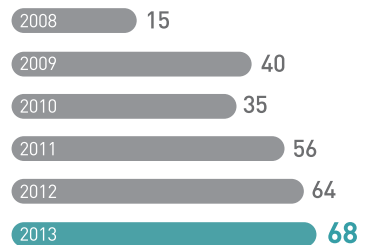

Reading & Discussion Community through Books: 'Dadok Dadok'

- Reading and discussion among a professor and students on a book
- Program: Bi-weekly meetings and report submission

Online Writing Counseling

- To enhance writing ability through one-to-one feedback online
- Counseling: Subject setting, structure and development, sentence and expression

Status from 2008 ~ 2013

Campus Life,

Communicating through Various Activities

Innovative Education of of Convergence and Communication

Interdisciplinary Education

- To improve the writing ability of students through classics reading and feedback
- To develop and compose curriculum to grow communication, critical thinking, creative problem solving ability
- To expand and vitalize collaboration courses

To Realize True Teaching and Meaningful Learning

- Learning community building from spontaneous participation from faculty and students
(in 2012: 851 professors (44%), 6,940 students (33%))
- To strengthen learning and teaching ability through more active "Aha! Learning Community" program
- To maximize opportunities of freshmen to adapt to campus life, find major, and search for careers

Enhanced High Quality Lecture and Management System

- Effective Lecture Support by improving course registration and evaluation system
- Establishment of education evaluation system based on lecture management note system
- Establishment of education support system through more vitalized mentor-responsible professor system
- To find professors with excellence and popularity in lecture
- Enhancement of accessibility to education through smart system
- To share and promote good lectures through development of e-learning contents

To Establish Demand-based Education System

- To run various programs, more suited to students' demand
- To run curriculums in line with social demands and changes
- To develop and run courses

Freshmen and Sophomores Self Analysis and Future Design

- Job psychology test and search career information
- Career path counseling (individual and group)
- Course on 「Career Design and Self Understanding」

Junior and Senior 1 student 1 program participation

- Job-employment club activities
- Course on 「Life and Career Seeking」
- Internship and Youth Job Experience Program
- Career aptitude test, mock interview, education on leadership and speech

Senior and Graduates Interdisciplinary and Global Intellectuals

- Job fair and employment counseling
- Recommendation of local talents
- CNU Job-employment Ace
- Interview training and job-employment camp programs
- Job Matching program

Tailored Career Guide to Realize Dreams

Job-employment Center

- To develop and implement job-employment policy
- To recommend job-employment counseling at private and public companies
- To collect and provide job-employment information
- To run internship and youth job experience program
- To build company and alumni database
- To manage employed graduates and statistical research

Future Design Center

- To run future design program
- To provide counseling career design and preparation for job-employment
- To run freshmen English competence development program
- To develop and run job searching courses
- To develop and run job-employment ability development program
- To manage self-improvement card

Gender Equality Center

- To develop and implement women career policy
- To invite and operate gender equality support project

CM (Career Manager) at College

- Job-employment professional, tailored to each college
- To guide career path design by finding out aptitude and interests of lowerclassmen
- To coach job-employment preparation and recommend positions for upper year students

Interdisciplinary Talents

with creative Leadership

Scholarship Support to Excellent Students

- Support program for freshmen with excellent Korean SAT grade
- Up to one year tuition exemption for students from rural villages

Merit for Continuing Study in Graduate School

- One year tuition support for students entering a graduate school of CNU or world top 100 master's or doctoral degree

Merit for Overseas Program Participation

- Additional point given for selecting participants for language training, exchange student, and internship

Challenge Scholarship and Contribution Scholarship

This scholarship program is for freshmen who constantly challenge themselves with a pioneering spirit.

| Challenge Scholarship Students |

Students are selected based on their forward-looking and sincere endeavors, and entitled to be mentors for lowerclassmen.

| Contribution Scholarship Students |

Scholarship is given for students with great achievement or contribution to the university, thus strengthening competence and affection to the school.

Scholarship Beneficiaries

Year	Number of Recipients	Amount of Scholarships
2012	67,881	52,138
2011	36,851	37,646
2010	36,292	37,274
2009	32,694	29,539
2008	28,085	25,371

[Unit: USD]

Internal Scholarships

▶ Development Fund Foundation Scholarships

- Scholarships for Academic Excellence
- Statutory Scholarship
Scholarship for State Meritorious Persons and Their Children, Scholarship for residents who have escaped from North Korea with their children
- Welfare Scholarships
Child Welfare, Youth from Child Headed Families, Excellence (Lower Income Families), those with financial difficulties, those who are disabled, those from farming/fishing families and high schools in rural areas.

• Special Scholarships

Those with physical specialties, those in Yeong-Honam exchange programs, family scholarships, those in undergraduate/graduate combined programs Scholarships from University Foundation Fund, Work-Study Scholarship (Undergraduate), Teaching Assistantship (Graduate School)

▶ Scholarships from University Foundation Fund

Yongbong Excellence, Yongbong, Daeshin, Dongwon, appointed - unappointed scholarships (100 programs in total)

▶ Scholarships for Excellence on Korean SAT

Scholarships for Excellence on Korean SAT

▶ College Scholarships

Each college and department at CNU awards a number of specific scholarships to enrolled students

▶ National Project Scholarships

LG Innotek, Scholarship for Growing Medical Scientists

Scholarships Awarded by Staterun Institutions

▶ Korea Scholarship Foundation

- National Scholarships (Type I, II)
- National Excellence Scholarships (Nature sciences/Engineering, and Humanities and Social sciences)
- National Research Fund (Humanities and Social Sciences)
- National Service Scholarships

▶ Hope Foundation for Rural Village in cooperation with Korea Racing Authority(KRA)

- Successors Development Scholarships
- Scholarship for Children of Farming/fishing Families

▶ Scholarships Awarded by Local Governments

- More than 20 external scholarships are awarded to CNU students by each local government

External Scholarships

▶ Scholarships from Off-Campus Scholarship Foundations

- There are 80 kinds of scholarships for students with excellent academic achievement or students from low-income families chosen by off-campus scholarship foundations in Korea or through the recommendations from the university president.

Development Fund

For Donation

- Cash Management Service (CMS)
Donating a certain amount of money every month during the pledged period from a designated bank
- Credit card payment or online transfer via the homepage

Tax Benefits

Private Donors According to the Income Tax Law, donors to CNU are eligible to receive a **100 percent tax deduction**.

Donations to other institutions have benefits of only a 10 percent tax deduction.

Corporate Donor When the donation accounts for 50% of yearly earnings (after the deduction of the donation and the deficit), it is considered as a donation of entire earnings.

Donation of Inherited Property The entire donation will be exempt from inheritance taxes (as long as the act of donation is done within 6 months of inheritance.)

Benefits for Donors

- A donation receipt is issued for tax deduction.
- Following the amount of donation, CNU confers titles of Yongbong Fellow (100 million won and above), Mudeung Fellow (50 million won and above), Camellia Fellow (10 million won and above) and Royal Azalea Fellow (5 million won and above).
- Plaque of donors is attached to the front gate of the headquarters.
- All donors are recorded in the 'History of CNU'.
- A plaque of appreciation as well as souvenirs are awarded to donors during the appreciation ceremony.
- Depending on the amount of the donation, CNU invites donors to major events, provides them with periodicals and benefits to use university facilities (Language Education Center, Sports Center, School of Lifelong Education and Animal Hospital) and CNU Hospital and Dental Hospital.

How Development Funds Are Used

CNU designates the use of funds for scholarship projects, supporting academic exchanges, purchasing books, supporting education and research facilities, and student welfare projects; private donors designate the use of funds for special programs.
