

Vision

Quality education bringing hope and excitement to the community. An international campus nurturing global talents and making great strides toward becoming a world-class university

President's Message

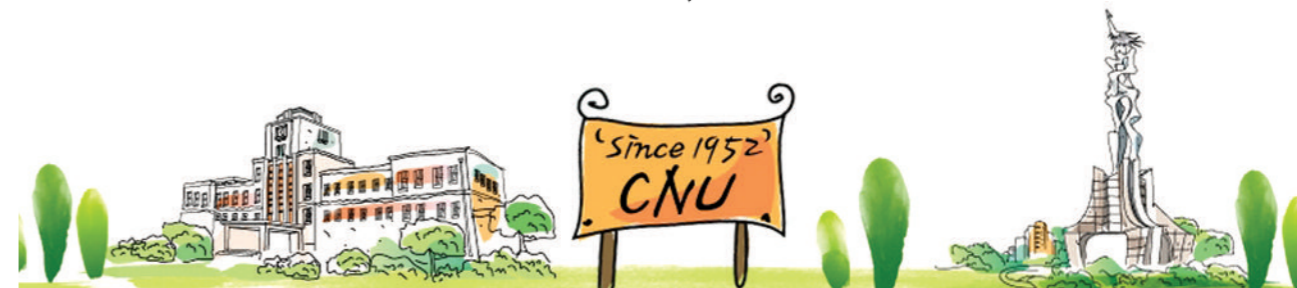

Chonnam National University (CNU) has the enviable responsibility of leading modernization and democratization in Korea. We fulfill this responsibility through our two main institutional functions education and research with an eye towards becoming a world-class university.

CNU applies longstanding values of communication, cooperation, and creativity to offer the best quality education to our students. Our students are problem-solvers. They are independent, imaginative, and global. Their needs and interests have changed in this dynamic environment, and CNU must also change to accommodate this new direction. Our new freshman education programs and curricula are transformative, and designed to help new students adapt and succeed as new age leaders.

Quality education begins with quality research. In many areas of research, Chonnam National University has demonstrated great potential despite great challenges. The annual research fund budget of CNU faculty has already reached 120 billion won, which puts CNU in 9th place among universities nationwide for external research funds. Additionally, CNU is now ranked in the top 10 as a research university based on the highest number of WCU (World Class University) projects, profits from technology transfer, and the number of patented intellectual property rights. CNU has also been chosen as an outstanding research institute by the Ministry of Education, Science and Technology for effectively managing research funds. By establishing technology supporting companies that can commercialize the technology that CNU has developed, CNU is now at the level of utilizing its own technology to create profits.

Excellence in education and research has helped define CNU for over six decades. We are committed to continuing this tradition, instilling hope and excitement among our stakeholders. We ask for your continued support as the University and Korea as a whole embrace our emerging roles as world leaders.

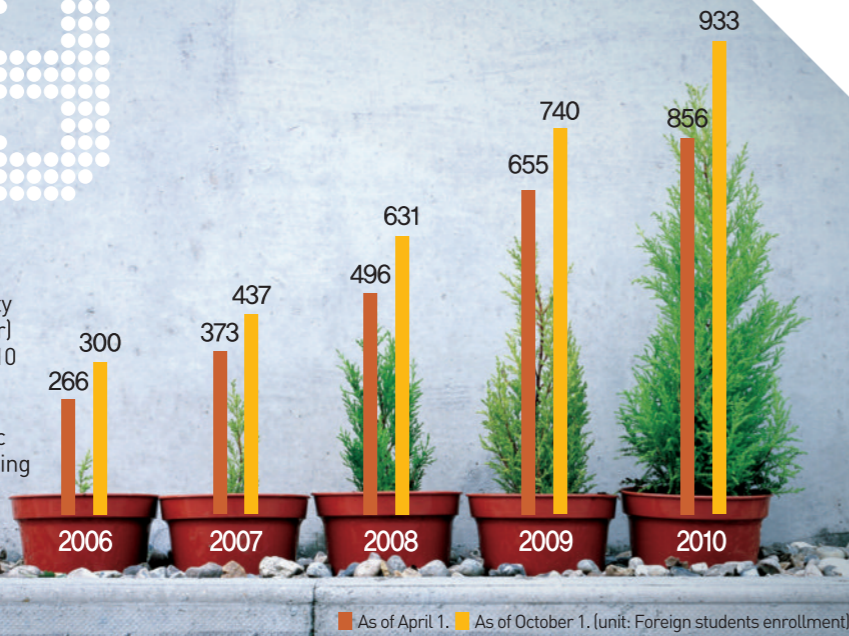

Yoon Soo Kim
President

Number of foreign students

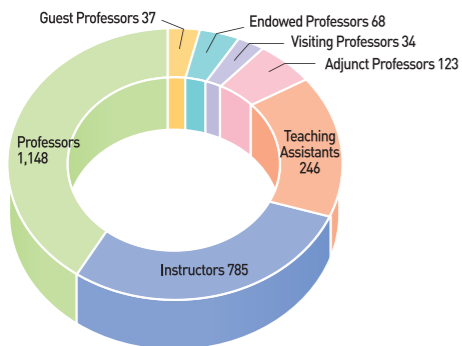

The total number of foreign students attending Chonnam National University (excluding Language Education Center) has increased significantly in the last 10 years, totaling 933 as of 2010. Foreign and domestic students are expected to open the way for academic exchanges at a global level, transcending linguistic and cultural barriers.

CNU Today

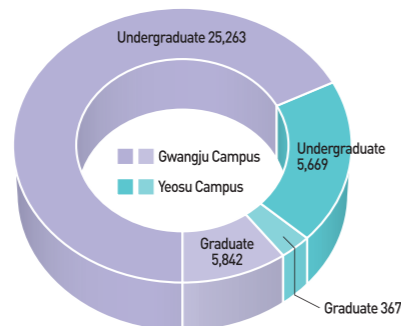

Educational indicators are demonstrating the present and the future of CNU. CNU is surely worthy of attention.

Faculty (as of April 2011)

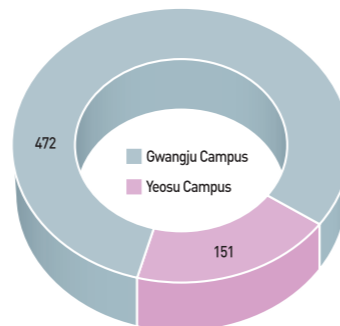

Total number of faculty
2,441

Students (as of April 2011)

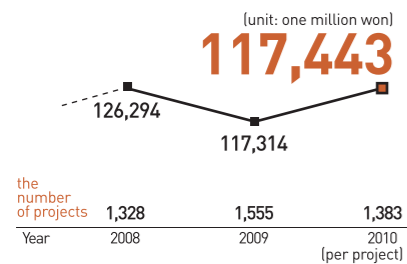

Total number of students
37,141

Staff (as of April 2011)

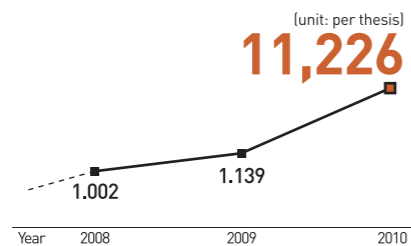

Total number of staff
623

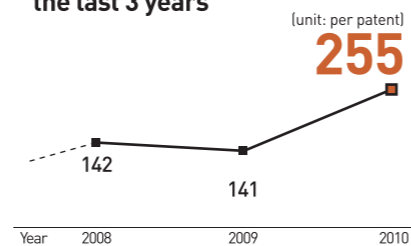

Annual research fund budget during the last 3 years

Number of SCI theses published during the last 3 years

Number of patented intellectual property rights during the last 3 years

► Size of Campus : **11,162,944** m²

► Library Holdings : Books **1,397,975** Periodicals **5,139**

From the pioneer of modernization and democratization to the cradle of creative intellectuals

Chonnam National University dreams of today not like yesterday and tomorrow not like today. Armed with exceptional ideas on education and the spirit of challenge to realize those ideas, CNU is renewing itself to lead regional development and arouse hope and excitement in the local community.

CNU was established from the ashes of the Korean War to realize the people's hope of reconstructing the nation through education. Since that time, the University has played a vital role in championing and developing Korean education and democracy. CNU remains committed to nurturing society as a whole by providing a positive and accessible learning environment for all. Putting one's own people and country first and dedicated to the development of community, nation and humanity—that's the true power of intellect. The power enables CNU to march toward the world stage.

History

Half a Century for Korea, a Millennium for the World

1909~1951

Jun. 10, 1909 Gwangju Agricultural School established.

Jun. 1920 Mokpo Commercial School established.

Mar. 31, 1944 Gwangju Medical School established.

May 5, 1950 Graduate School (Department of Medicine) authorized.

May 27, 1950 Provincial College of Gwangju Elementary Agriculture and Provincial College of Mokpo Elementary Agriculture authorized.

Aug. 1951 Daesung School (private Daesung college) authorized.

Sep. 16, 1951 Founding Committee of CNU organized.

Oct. 6, 1951 Establishment of CNU authorized.

1952~1969

Jan. 1, 1952 CNU launched (College of Engineering, College of Agriculture, College of Liberal Arts and Sciences, College of Commerce and Medical College).

Jun. 1, 1952 1st President, Sang-chaе Choi, inaugurated.

Jun. 9, 1952 Opening ceremony of CNU held. Graduate School opened.

Sep. 15, 1953 University Library opened.

Feb. 7, 1954 College of Law established.

Apr. 1, 1954 University Press established.

Apr. 28, 1959 2nd President, Sang-chaе Choi, inaugurated.

Aug. 29, 1960 3rd President, Ha-wook Pak, inaugurated.

Sep. 8, 1961 College of Agriculture and Commerce dissolved according to government-imposed University restructuring. Gwangju Education College reorganized into CNU Education College.

Dec. 2, 1961 Student recruitment at College of Engineering ceased and College of Agriculture reestablished according to government-imposed University restructuring.

Mar. 13, 1962 4th President, Jun-bo Kim, inaugurated.

Mar. 1, 1963 Departments of Civil Engineering, Architectural Engineering, and Electrical Engineering in College of Engineering reestablished.

Mar. 6, 1963 Departments of Commerce and Economics in College of Commerce reestablished.

Mar. 10, 1963 Gwangju University of Education separated from CNU Education College.

May 15, 1965 5th President, Ha-wook Pak, inaugurated.

Feb. 19, 1969 Graduate School of Business Administration established.

May 21, 1969 6th President, Gi-choon Yu, inaugurated.

1970~1979

Mar. 1, 1972 College of Education established.

Mar. 1, 1973 Pilot College Program started with College of Education and College of Commerce.

May 21, 1973 7th President, Gi-choon Yu, inaugurated.

Mar. 1, 1974 Pilot College Program expanded to include Colleges of Engineering, Agriculture, and Liberal Arts and Sciences.

Dec. 9, 1974 8th President, Jun-shik Min, inaugurated.

Jan. 15, 1975 Pilot College Program expanded to include College of Law.

Mar. 10, 1975 Graduate School of Education opened.

Nov. 5, 1975 CNU Middle School established under College of Education.

Jul. 11, 1976 CNU High School established under College of Education.

Dec. 9, 1978 9th President, Jun-shik Min, inaugurated.

Jan. 1, 1979 College of Engineering reorganized into College of Chemical Engineering with nine departments.

Nov. 12, 1979 College of Liberal Arts and Sciences divided into College of Humanities & Social Sciences and College of Natural Sciences.

Dec. 5, 1979 Graduate School of Public Administration established.

1980~1989

May 18, 1980 5.18 Gwangju Democratic Movement held at the CNU main gate.

Jun. 12, 1980 10th President, Hang-gi Oh, inaugurated.

Oct. 2, 1981 College of Dentistry established. Colleges of Commerce renamed as College of Business Administration.

Oct. 20, 1981 Colleges of Arts and Pharmacy established.

Jun. 12, 1984 11th President, Deuk-gyu Jung, inaugurated.

Aug. 1, 1984 12th President, Young-in Kim, inaugurated.

Mar. 1, 1987 College of Humanities and Social Sciences reorganized into College of Humanities and College of Social Sciences.

Mar. 1, 1988 Department of Veterinary Medicine in College of Agriculture promoted to College of Veterinary Medicine.

Aug. 17, 1988 13th President, Byung-mun Oh, inaugurated.

Oct. 29, 1988 Departments of Home Management, Food and Nutrition, and Clothing and Textiles in College of Natural Sciences reorganized into College of Home Economics.

Mar. 1, 1989 Graduate School of Industry and Technology established.

1990~1999

Aug. 17, 1992 14th President, Han-sun Choi, inaugurated.

Mar. 28, 1993 University Hospital authorized as a public corporation.

Aug. 22, 1994 National Engineering College project selected CNU College of Engineering as its key recipient in the automotive engineering field.

Aug. 17, 1996 15th President, Sung-man Noh, inaugurated.

Dec. 10, 1996 5.18 Institute established.

Dec. 27, 1996 Social Education Center opened.

Aug. 1998 Unveiling ceremony of CNU education policy statue.

May 20, 1999 Oh! Yes Center (comprehensive service center) opened.

Sep. 1, 1999 CNU selected as a host university of Brain Korea 21 national research project (12 research teams assigned).

2000~2010

Mar. 1, 2000 Graduate School of Agriculture Development opened.

Aug. 17, 2000 16th President, Suk-jong Jung, inaugurated.

Mar. 1, 2002 Colleges of Home Economics, Agriculture, and Liberal Arts renamed as the Colleges of Human Ecology, Agriculture & Life Sciences, and Humanities, respectively. Social Education Center renamed as School of Lifelong Education. Dormitories renamed as student residence halls.

Sep. 9, 2003 School of Biological Sciences and Technology established.

Aug. 17, 2004 17th President, Jung-chaе Kang, inaugurated.

Mar. 1, 2005 Department of Nursing Sciences promoted to College of Nursing. College of Dentistry closed and Graduate School of Dentistry established. Office of Student Affairs (Human Resource Development Center) and Office of Planning and Cooperation (Office of Public Relations) established.

May 18, 2005 5.18 Memorial Hall opened.

Mar. 1, 2006 Yeosu National University merged with CNU. College of Natural Sciences in Yeosu National University closed. College of Engineering and College of Humanities & Social Sciences at Yeosu campus reorganized into College of Engineering Sciences and College of Culture & Social Sciences, respectively. Graduate School of Fisheries and Ocean Sciences in Yeosu Campus and Graduate School of Culture opened.

Mar. 1, 2007 Graduate School of Business Administration reorganized into Graduate School of Business.

May 2008 Yongji Hall opened.

Aug. 17, 2008 18th President, Yoon-soo Kim, inaugurated.

Aug. 2008 Student Residence Hall constructed by BTL project completed.

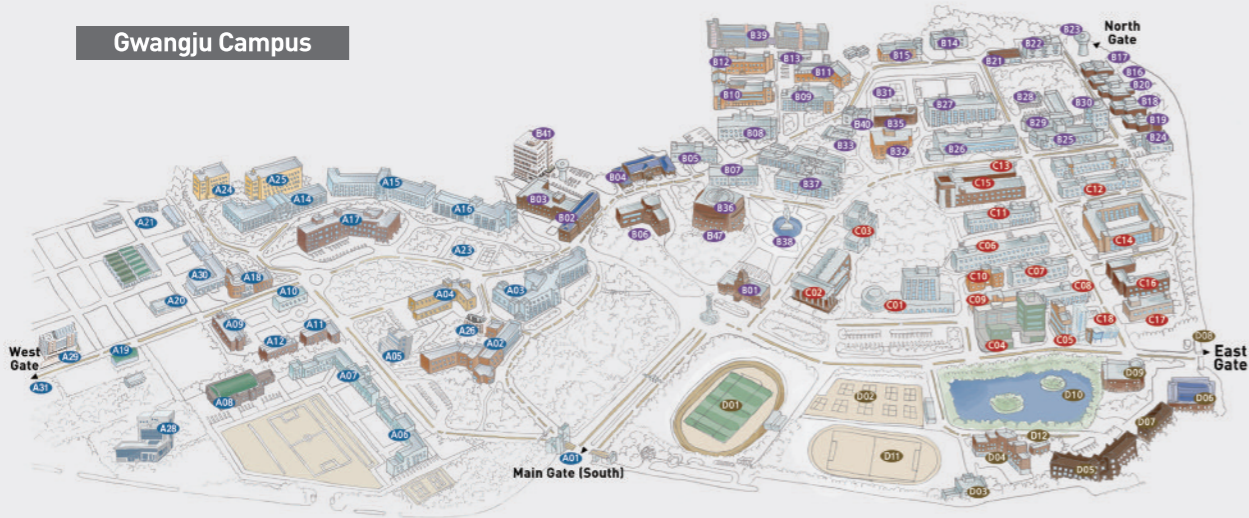

Sep. 18, 2008 Office of International Affairs and Office of Financial Management established.

Nov. 17, 2008 Chonnam National University Dental Hospital opened.

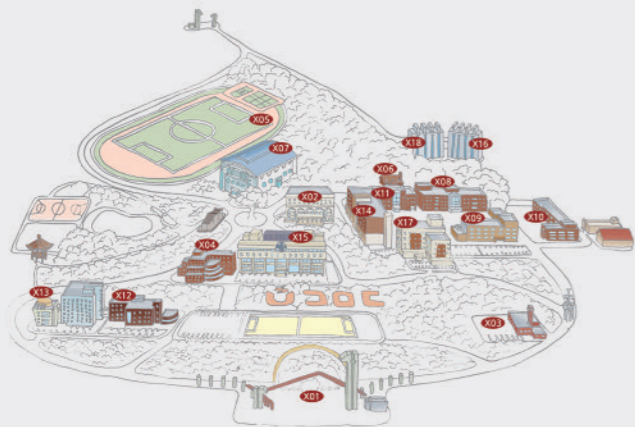

Mar. 1, 2009 Law School and Medical School opened.

Mar. 3, 2010 Expanded Education Development Institute- Renamed the Institute of Liberal Education

Colleges

College of Nursing

The College of Nursing aims to produce medical professionals who help maintain and promote human health. Graduates are also capable of preventing disease and helping patients recover from them. Students of the College of Nursing are trained to be able to respond to the rapidly changing medical environment and health service industry.

- | Department of Nursing

College of Business Administration

The College of Business Administration aims to foster creative global leaders who are equipped with professional knowledge and work skills in business and the economy. In order to achieve this goal, the College of Business Administration promotes globalization, institutionalization, and utilization of projects through which students can develop their intellectual, professional, and communicative skills as well as work ethic and service leadership.

- | Department of Business Administration
- | Department of Economics

College of Engineering

The College of Engineering fosters talented engineers in the game-changing fields of Information Technology, Biotechnology, Nanotechnology and Environment & Energy Technology and Space Technology. The College is also pursuing ABEEK (Accreditation Board for Engineering Education of Korea) accreditation.

The Engineering College offers on-the-job training courses to teach practical skills that companies require. In addition, tailor-made graduate courses for employees of LG Innotek, an IT track course for employees of Samsung Electronics, and a Semiconductor track course for employees of Hynix Semiconductor are being provided.

- | School of Architecture
- | Department of Civil Engineering
- | Department of Environmental Engineering
- | Department of Energy & Resources Engineering
- | School of Mechanical Systems Engineering
- | School of Materials Science and Engineering
- | School of Electronics and Computer Engineering
- | School of Applied Chemical Engineering
- | Department of Polymer, Textile System Engineering
- | Department of Industrial Engineering
- | Department of Electrical Engineering

College of Agriculture and Life Sciences

The College of Agriculture and Life Sciences is firmly rooted as a mecca of future biotechnology industry and environmentally-friendly agricultural technologies. The College is leading the planning, design, management and commercialization of new infrastructure demanded by the course of Rural Reconstruction. It also trains graduates to be armed with theoretical and practical skills that enable them to develop agricultural production technology and effectively utilize agricultural resources.

- | Division of Forestry Resources
- | Department of Landscape Architecture

- | Division of Applied Bioscience and Biotechnology
- | Division of Animal Science
- | Department of Regional Bio-systems Engineering
- | Department of Bio energy Engineering [new]
- | Department of Agricultural Economics

College of Education

The College of Education aims to unlock students' potential in order to become highly-qualified teachers who are able to effectively respond to a rapidly changing school environment. The graduates from the College of Education are awarded the second level teacher's license and can become secondary school teachers.

- | Department of Korean Language Education

- | Department of Chemistry Education
- | Department of Biology Education
- | Department of Earth Science Education
- | Department of Home Economics Education
- | Department of Music Education
- | Department of Physical Education
- | Division of Education (Yeosu Campus)

College of Social Sciences

Graduates of the College of Social Sciences are characterized by their commitment to serving society and tackling greater social issues through a scientific approach to social activities and phenomena. These professionals work for better communication between members of society. The College of Social Sciences takes pride in its prominent professors and effective curriculum that integrates both theoretical and practical education, focusing on experiments, on-the-job training and field trips.

- | Department of Political Science and Diplomacy
- | Department of Sociology
- | Department of Psychology
- | Department of Library and Information Science
- | Department of Communication
- | Department of Geography
- | Department of Anthropology
- | Department of Public Administration

College of Human Ecology

Based on traditional family values, CNU's College of Human Ecology fosters talented personnel for the modern industrial world by providing education on state-of-the-art science and technology. By connecting theory to experimental practices and field training, students are offered sophisticated knowledge and able to readily apply that knowledge in the field. The College is also currently providing students with more opportunities to work overseas.

- | Department of Family Environment and Welfare
- | Department of Food and Nutrition
- | Department of Clothing and Textiles

College of Veterinary Medicine

Veterinary medicine involves the diagnosis, prevention, and treatment of animal illnesses and disorders in farm animals such as cows, pigs and chickens, experimental animals, companion animals, aquatic animals, wild animals and invertebrate animals. The discipline further embraces basic life science that includes the course of life for both humans and animals.

- | Department of Pre-veterinary Medicine
- | Department of Veterinary Medicine

College of Pharmacy

The goal is to foster pharmacists with good character and great virtues who can contribute to the wellbeing of the human race through the research and development of medicine and pharmacotherapy. The College of Pharmacy is restarting as a 6 year-course (2 + 4 years) in 2011.

- | Division of Pharmacy

College of Arts

At a time when the importance of culture and art is ever growing and Gwangju is transforming itself into a cultural hub city, CNU's College of Arts provides an intellectual and artistic infrastructure necessary to maintain Gwangju's cultural assets. The College of Arts is attracting public attention as it produces talented art performers, educators, producers, artists, and curators.

- | Department of Music
- | Department of Korean Traditional Music
- | Department of Fine Arts

Medical School

As students are expected to take care of human life, the College of Medicine aims to instill virtues into students and foster doctors who study the fundamental truth of medicine, prevent and treat diseases, and ultimately contribute to improving the well-being of people. The college also aims to nurture medical scientists who lead medical development.

- | Department of Pre- Medicine
- | Department of Medicine

College of Humanities

The College of Humanities has played a pivotal role in redefining Gwangju as a city of democracy and human rights as well as developing the city into a cultural hub. Humanities serving as an academic and spiritual footing have cleared the way for Gwangju's transformation. The College helps students expand their creative and logical capacity. Students lead a fruitful college life by joining reading and job clubs as well as art and culture events.

- | Department of English Language and Literature
- | Department of German Language and Literature
- | Department of French Language and Literature
- | Department of Chinese Language and Literature

- | Department of Japanese Language and Literature
- | Department of History
- | Department of Philosophy

College of Natural Sciences

The College of Natural Sciences focuses on natural science education and research. The College fosters outstanding scientists and researchers who create new knowledge that boosts national competitiveness. It also plays an integral part in the development of basic and applied sciences.

- | Division of Mathematics and Statistics
- | Department of Physics
- | Division of Molecular Life Sciences
- | Division of Earth Systems and Environment Sciences
- | Department of Pre-Medicine
- | Department of Pre-Veterinary Medicine

The Division of Open Major [New]

The Division of Open Major is divided into the Division of General Studies and the Division of Open Major, both of which aim to foster elites in interdisciplinary studies across all study areas including humanities, sociology, science, and art. Graduates of this division are eligible to apply to research organizations, law school, medical school, and MBA programs, or to transfer to the College of Pharmacy.

School of Biological Sciences and Technology

The School of Biological Sciences and Technology offers basic and applied biology education and also trains talented researchers and scientists. Because the School was selected for the second stage of the Brain Korea 21 Project, it also offers differentiated student support programs. The School is striving to enter the top 5 list in Korea and the world's top 100 list in biotechnology field.

College of Engineering Sciences (Yeosu)

The College of Engineering in Yeosu Campus aims to train creative and field-oriented engineers, skilled technicians and globalized talents by promoting ABEEK accreditation. To this end, the College has established a wide range of programs, delivered practical lectures and given students more opportunities to take part in academic-industrial cooperation research.

College of Fisheries and Ocean Sciences (Yeosu)

The College of Fisheries and Ocean Sciences was founded in 1917 as Yeosu Public Miniature Fisheries School. The Ministry of Maritime Affairs and Fisheries designated the College as a specialized institute (Aquaculture and Marine Environment area). Along with its long tradition, the College has developed into a mecca of education and research of maritime affairs and fisheries. The College has also been training professionals to develop marine resources and advanced technologies.

Graduate School

Graduate students in master's and doctoral programs play a pivotal role in improving the research capacity of CNU and in proposing a new vision for the local industry. 29 departments in Humanities and Social Sciences, 26 departments in Natural Sciences, 12 departments in Engineering, 4 departments in Arts, 3 departments in Medical Sciences and 31 departments in Interdisciplinary Programs have master's and doctoral programs at the Gwangju campus. 5 departments in Humanities and Social Sciences, 6 departments in Natural Sciences, 13 departments in Engineering and 2 departments in Interdisciplinary Programs provide master's and doctoral programs at the Yeosu campus.

Integrated Master's and Undergraduate Courses (awarding Bachelor's and Master's degrees in 5 years)

CNU Integrated Master's and Undergraduate Course, established in the fall of 2007, is the first of its kind among national universities. The course integrates undergraduate courses and master's courses by reducing one semester from each course so that students can receive a master's degree in five years. Students who have applied for this program are capable of deciding their career earlier and carefully preparing for their future. The course offers various benefits and support to participants.

Note: "MA/MS" or "PhD." implies the department only has a master's or doctoral program. No such designation implies the department has both programs.

Graduate School of Education

CNU's Graduate School of Education offers majors and educational theories and also helps students develop problem-solving skills for various challenges they will face at schools and in classrooms. The Graduate School of Education enables in-service and preliminary teachers to self-develop and expand their professional teaching skills and ultimately serve as pillars of Korea's public education system.

Graduate School of Industry and Technology

CNU's Graduate School of Industry and Technology is a renowned institute that nurtures competitive global leaders and engineering experts.

Graduate School of Public Administration

The Graduate School of Public Administration promotes research and instruction of theories and applications in the area of public administration and related disciplines. The programs provided produce competent public administrators in this highly industrialized society.

Graduate School of University-Industry Cooperation (Yeosu Campus)

The Graduate School of University-Industry Cooperation fosters highly skilled and creative technicians by providing practical education in industrial technology.

Graduate School of Fisheries and Ocean Sciences (Yeosu Campus)

CNU's Graduate School of Fisheries and Ocean Sciences contributes to the national development of the fishery industry by nurturing maritime and fisheries specialists armed with leadership and creativity.

Graduate School of Business Administration

As the first professional graduate school of business outside of Seoul, the CNU MBA aims to foster competent business professionals who lead industrial development beyond Gwangju and the Jeonnam region.

The CNU MBA admits 100 persons in two kinds of programs. The Pan-Asia Capstone MBA (PAC MBA) is a full-time, weekday program. The Pan-Asia Capstone Executive MBA (PAC EMBA) is an evening or weekend program for those currently working or with work experience.

Graduate School of Culture

The Graduate School of Culture is the only professional graduate school of culture in Korea and trains key talented personnel in the 'culture' area, which serves as the strategic industry of the cultural city of Gwangju.

The Graduate School of Culture admits 30 students and offers three academic streams: Theory of Cultural Art and Planning, Cultural Tourism and Cultural Management.

Graduate School of Law

The School of Law emphasizes public interest and human rights and aims to foster global law officials with professional knowledge and experience.

Established in March, 2009, the School of Law admits 120 students including 40 students from non-prelaw majors and 40 students from other universities. Five percent of the quota is admitted through a special screening system among socially disadvantaged groups.

Medical School

The CNU Medical School aspires to produce true medical personnel who have the proper personality and morality as doctors and are willing to contribute themselves to the well-being of humanity by studying the fundamentals of medicine.

The School of Medicine admits 63 students: 34 students are admitted through a non-scheduled admission process (local applicants with good grades among those who graduated from universities outside of Gwangju, or the Chonnam area, applicants with good grades among those who graduated from universities in Gwangju or the Chonnam area, self-promoting applicants) and 29 students from a scheduled screening system.

Graduate School of Dental Science

The College of Dentistry reorganized into School of Dentistry and is making great strides toward becoming a first-rate school of dentistry.

The Graduate School of Dental Science admits 70 students through a special screening system among applicants with good school grades. Students who apply for both masters and doctorate programs will receive scholarships.

Library

The CNU library consists of the main library, annex library, Yeosu library, medical library, law library and agriculture library. The main and annex libraries house about 5,300 carrels, over 1.2 million books and over 2,000 kinds of periodicals. In addition, the CNU library offers an online database as well as an electronic journal and e-book services. Students have no trouble using most library services on-line such as searching and viewing original texts as well as searching and requesting photocopies of other institutes' data from CNU's homepage. (<http://library.chonnam.ac.kr/>)

Language Education Center

CNU's Language Education Center boasts systematic foreign language programs suited to strengthen CNU's competitiveness and improve students' foreign language skills. The Language Education Center offers a wide range of English programs including English conversation courses, intensive programs and job preparatory English courses. It also offers non-English programs including Japanese, Chinese, and French. Finally it runs special programs such as TESOL (Teaching English to Speakers of Other Languages), a Korean language teacher training program, and Korean language courses for foreigners.

Institute of Liberal Education

The Institute of Liberal Education is an organization that conducts various projects and research to provide fundamental education, to promote competence in teaching and learning, and to help students develop into interdisciplinary elites. In order to achieve these goals, the Institute offers specialized projects and programs such as the Liberal Education Support Center, Faculty Support Center, E-learning Support Center, the Division of Open Major, and PHS Program.

Student Residence Halls

The Student Residence Halls provide housing and board for 3,140 students at the Gwangju Campus and 966 at the Yeosu Campus. They are equipped with computer labs, study halls, student lounges, laundry rooms, cafeterias, convenience stores and group study rooms. They also provide self-development programs.

Sports Center

The CNU Sports Center opened in 2006. Students can enjoy various sporting activities including golf, yoga, jazz diet, badminton, dance, sports and pilates. It also runs physical fitness assessment rooms to provide tailored exercise service depending on age, health condition, disease/illness and physical capacity. Exercise prescription experts manage an obesity clinic to help students enjoy their free time and maintain their physical health.

Campus Life

Students enjoy a wide range of activities at both university campuses.

Club Activities

CNU has more than 80 actively operating clubs in the areas of liberal arts, academics, athletics, volunteer service and religion. Each college also has specialized clubs. The CNU Club Association hosts an annual event that advertises clubs and helps freshmen get to know their own interests.

Liberal Arts Mukhyang, Seonyul, McIntosh, CNU Choir, Soriteo Orchestra, CURI, Lotus, Orohoi, CNU Orchestra, Classical Guitar Ensemble, UCDC, Movieworld - Arirang, Open Comics - Chang, Songran Bonsai club, Namdo Tea Culture Club, People of Photographs, Yongbong Literature Club, ZOOM, Classical Music Listening Club, International Cultural Exchange Club, Byson, CNU Play Club, Sound of Torch, Agricultural Music Club, Grise - let's draw, Highcord, Storm, We'Z

Academics HAM, Semi-charisma, Mother Nature Preservation Club, Young Korean Academy, Reading Saranbang, Hannuri, History Garden, Japanese Conversation Club, ESU, Yumunhoi, KUSA, Korean Language, Japanese Culture Club, YMCA, Picking Stars, TIME, New Vision, Abacus and Information Culture, Computer Club, PTC, EIM, ECHO, Club of Green, LPG

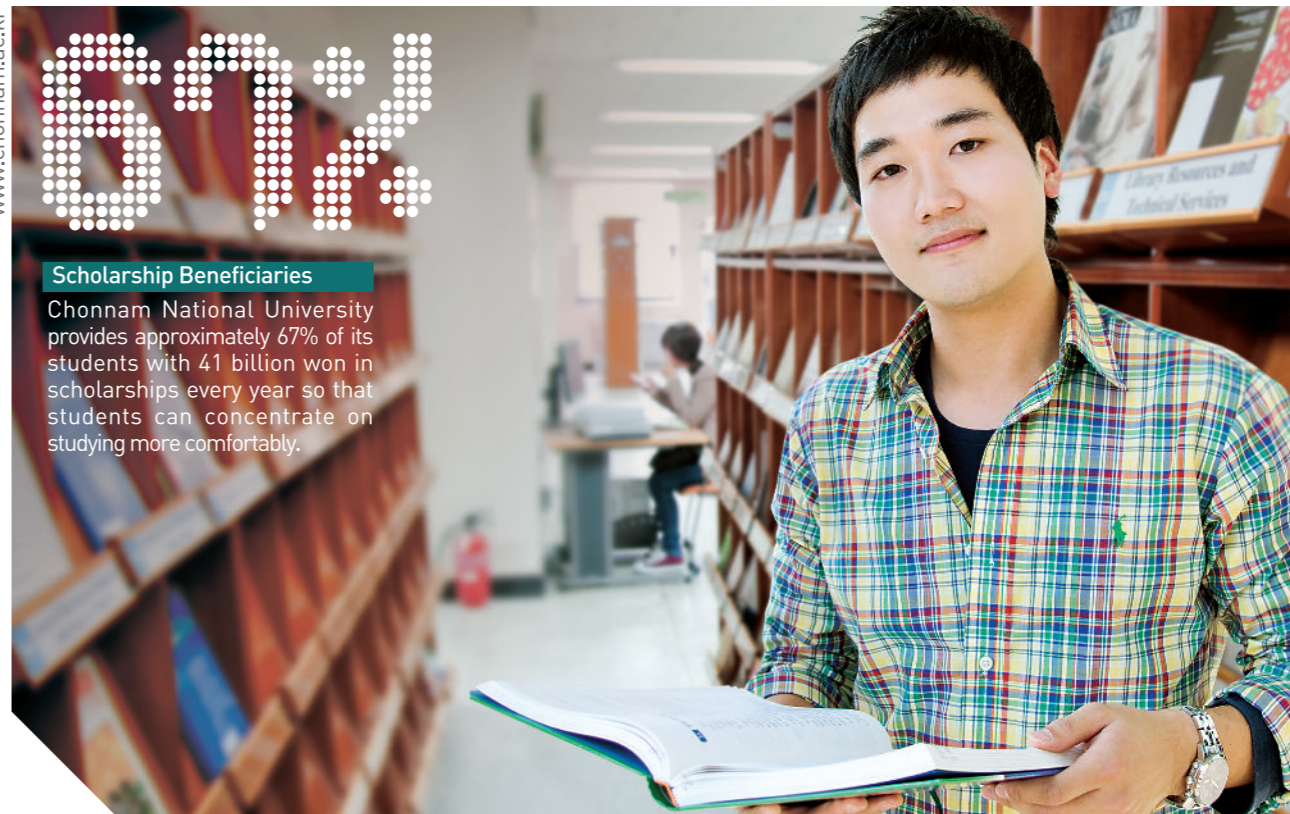

Athletics P.P.P, Yello Bicycle, Taebaekhoi, CH.U.B.A, Technician, Rangdohoi, Mountain Climbing, Gukseondo, GRIP, Montage, DOVE, Baseball Club, SEA-POX, Shin

Voluntary Service Shinhaeng, Rotary, Youth-Hostel, Dure, Hope Night School, Cheongsu

Religion Buddhist Student Club, Catholic Student Club, Won Buddhist Student Club, Jeungsangdo Student Club, ACT, CGM, CLF, COC, DSM, ENM, ERC, SCE, UBF, Youth With a Mission, CCC, ESF, IVF, SFC

Basic leadership qualities - the spirit of volunteer service

CNU develops students' specialties and boosts competitiveness through diverse leadership programs. Among Korean universities, CNU ranked first in blood donation two years in a row. CNU students learn the importance of sharing and sacrificing by participating in voluntary overseas work in Indonesia and Nepal as well as domestic work such as runaway teenager mentoring and assisting people with disabilities. Students build dynamic leadership skills as leaders of the future, participating in many kinds of volunteer activities.

Scholarship Beneficiaries

Chonnam National University provides approximately 67% of its students with 41 billion won in scholarships every year so that students can concentrate on studying more comfortably.

Scholarship Programs

CNU offers various scholarship programs so that high-achieving students can develop into key global leaders.

Challenge and Leap Scholarships

Instead of providing scholarships for students with excellent academic achievement, we choose scholarship students with development potential and an enthusiastic vision of the future.

Challenge Scholarship

This scholarship program is for freshmen who constantly challenge themselves with a pioneering spirit. Those who are selected will be given an opportunity to: participate in various educational programs, improve their learning ability, and therefore, build confidence in themselves.

Leap Scholarship

We provide financially disadvantaged students with a chance to develop their potential by relieving their economic burden so that they can focus on their studies and improve their chances of success.

Participate & Get More Support

CNU awards varied scholarship programs that meet students' financial conditions and needs. Anyone can become a special scholarship recipient by applying for a wide range of scholarship programs.

Internal Scholarships

- ▶ Development Fund Foundation Scholarships
- Superior Academic Performance Scholarship: Scholarship given to academically superior students
- Statutory Scholarship: Scholarship for State Meritorious Persons and Their Children, Scholarship for residents who have escaped from North Korea with their children
- Financial Aid Scholarship: Scholarship for students who are the head of their family, Scholarship for the Basis Livelihood Security Recipient, Yongji Scholarship, Welfare Scholarship
- University Scholarship: Scholarship for those admitted by Special Selection Procedures for Students from Fishing and Farming Areas, Scholarship for Athletic Excellence Students, CNU Academic Competition Winner Scholarship, Exchange Student Scholarship, Staff Scholarship, Scholarship for students in the Bachelor-Master Connecting Program (Graduate School)
- Work-Study Scholarship (Undergraduate), Teaching Assistantship (Graduate School)
- ▶ Development Fund Foundation Scholarships
- Yongbong Scholarship for Excellence, Yongbong Scholarship, (Scholarship Awardees) Specific/Unspecific Scholarship, Special Scholarship, Scholarship for Specific Purposes
- ▶ College Scholarships
- Each college and department at CNU awards a number of specific scholarships to enrolled students

- ▶ National Project Scholarships
- Brain Korea 21 (Graduate School), Bio Housing Scholarship (Graduate School)

Scholarships Awarded by State-run Institutions

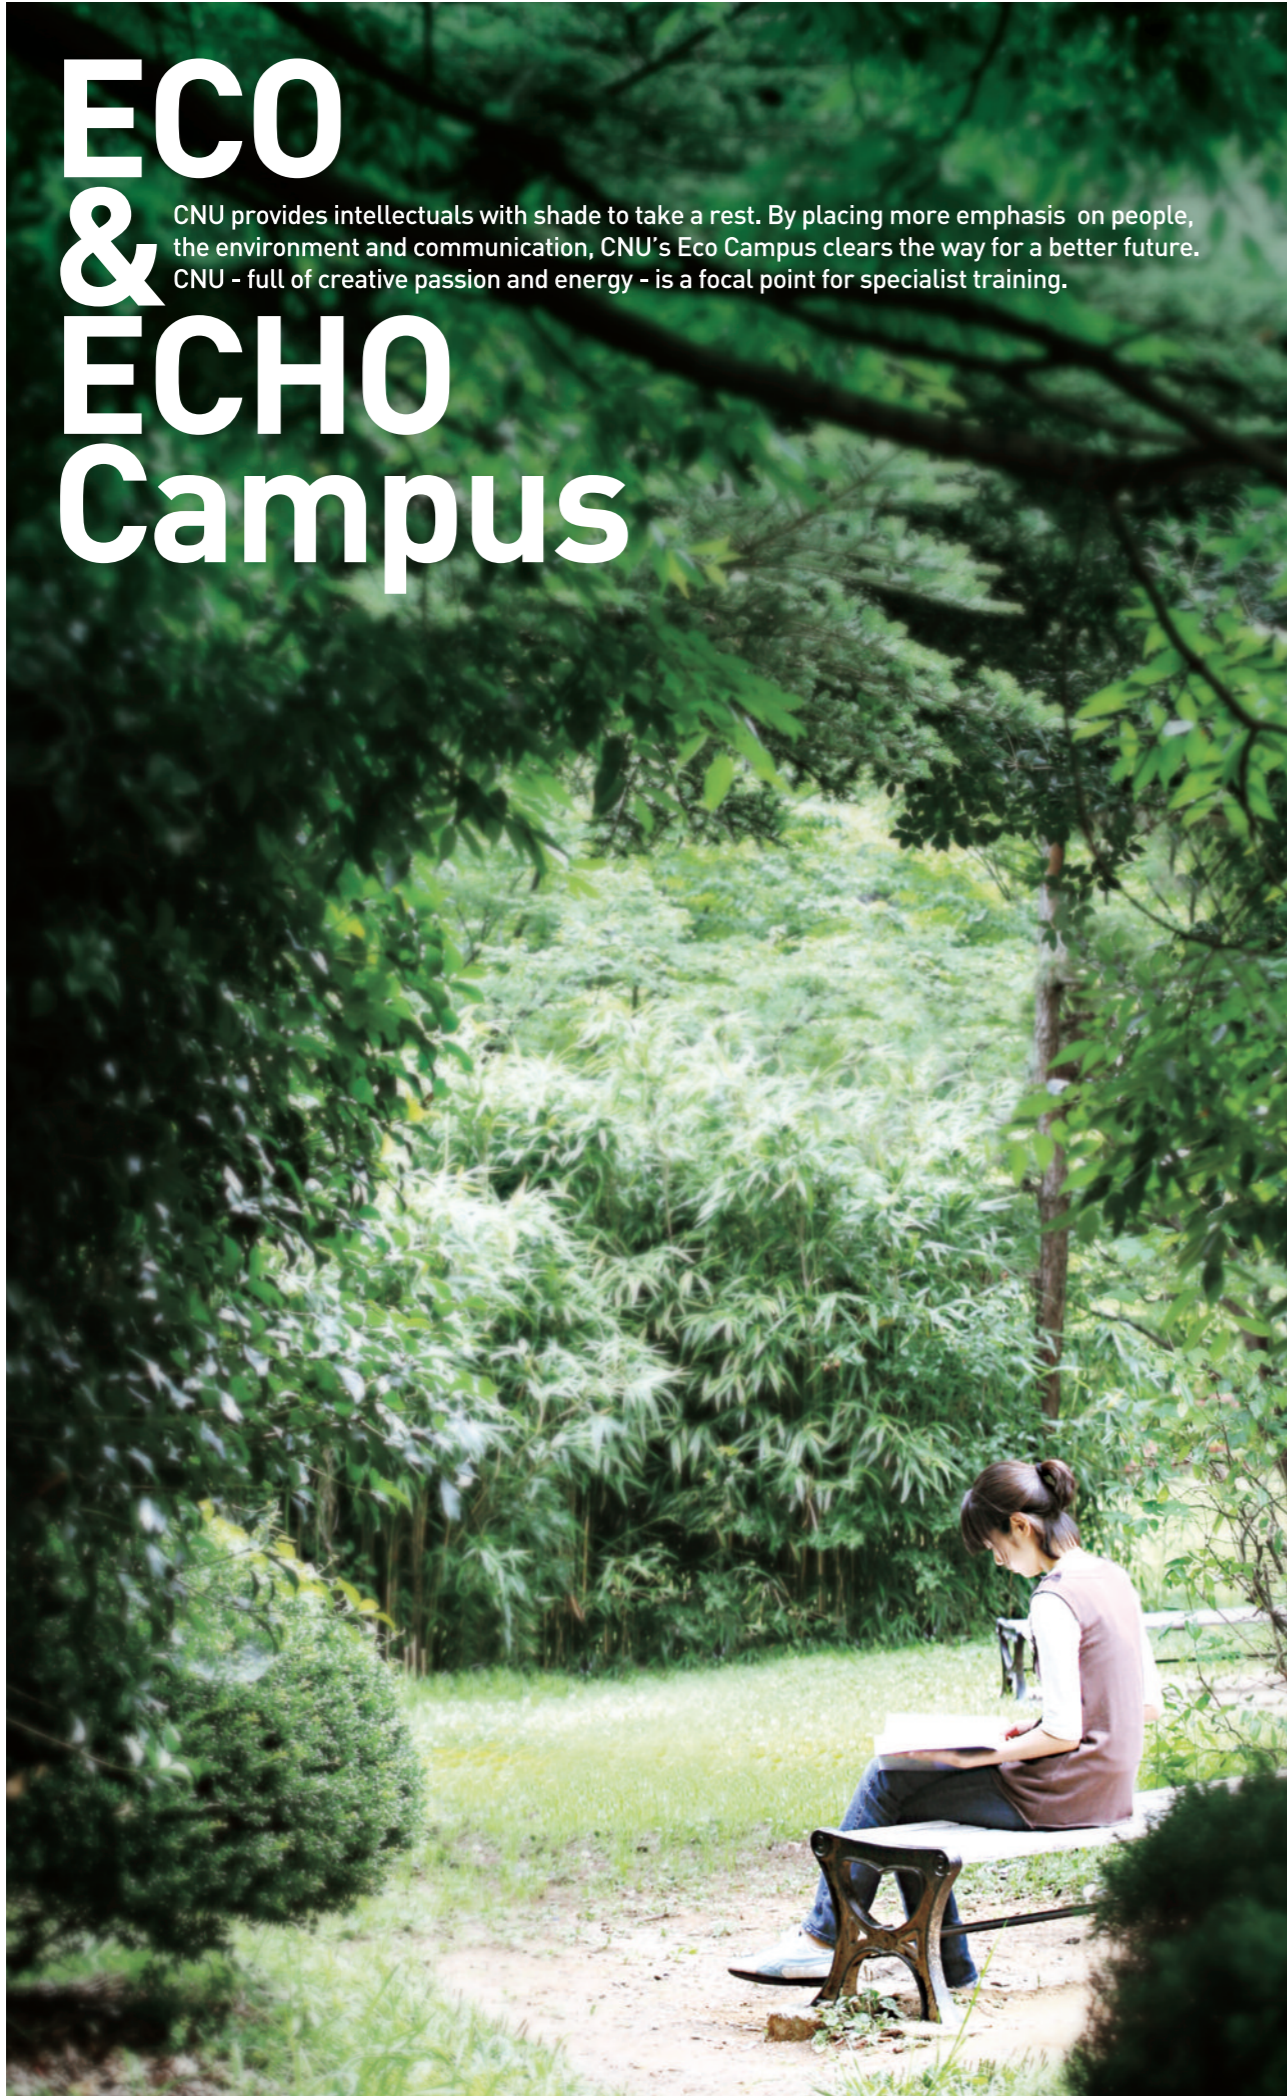

- ▶ Korea Student Aid Foundation
- General Scholarship: Scholarship for students from low-income families
- Scholarship for Humanities Students: Scholarship for Humanities students of local universities, Humanities scholarship for 100 years of future Korea (Graduate School)
- Scholarship for Engineering Students: National scholarship for Engineering students, Scholarship for excellent students of local universities, Research scholarship for engineering graduate students
- ▶ Korea Research Foundation
- Scholarship for Educational Capacity Strengthening Project (Challenge and Leap Scholarships)
- ▶ Hope Foundation for Rural Village in cooperation with Korea Racing Authority(KRA)
- Scholarship to foster talented farmers and fishermen, scholarship for farmers and fishermen, scholarship for excellent academic achievement, scholarship for students from agricultural and fishery villages admitted by special screening
- ▶ Scholarships Awarded by Local Governments
- More than 20 external scholarships are awarded to CNU students by each local government

External Scholarship

- ▶ Scholarships from Off-Campus Scholarship Foundations
- There are 60 kinds of scholarships for students with excellent academic achievement or students from low-income families chosen by off-campus scholarship foundations in Korea or through the recommendations from the university president.
- Key Leader Scholarship: Dongwon Scholarship, Development Fund Foundation Scholarship - Daeshin Scholarship, Ubong Scholarship, Keumho Asiana Culture Foundation Scholarship, Jeonsu Scholarship, GS Caltex Foundation Scholarship

ECO & ECHO Campus

CNU provides intellectuals with shade to take a rest. By placing more emphasis on people, the environment and communication, CNU's Eco Campus clears the way for a better future. CNU - full of creative passion and energy - is a focal point for specialist training.

Education Program

*CNU, an outlet for creative passion and energy
A focal point for specialist training*

High-class training that encourages students to reach new heights

CNU's Quality Education, Thumbs UP!

CNU offers a favorable educational setting and programs that strengthen basic and critical thinking skills in its students, who graduate with the necessary tools to become ideal members of society.

I Department-oriented Grassroots Education

- Tailored education depending on characteristics of departments or divisions
- Learning community with students and professors through professor accountability system
- Focus more on substantial education by implementing department accountability system in writing and English courses or meeting graduation requirements
- Activating department-centered learning communities
- Exceptional professors and departments creating desirable campus culture
- Impressing parents through building campus culture that instills a spirit of pride and innovation

I Substantial Fundamental Education

- Strengthening performance evaluation, strict curriculum requirements
- Curriculum focusing on basic liberal arts subjects
- Reinforcing critical thinking and problem-solving skills
- Building competitive classroom atmosphere run by strict and substantial syllabi

I Freshmen Education

- Preparing innovative support system to freshmen
- Implementing intensive English course for freshmen
- Placing major subjects in the freshmen course so that freshmen can improve their aptitude for majors
- Mandatory participation of full-time instructors in freshmen education

I Nurturing Global Talents

- Fostering talented students by introducing President Honor Students system
- Practicing open major department for consilience education
- Supporting International Internship program suited to characteristics of each department

I No More Worries about Employment

- With CNU, students have no worries about their future employment, as CNU provides a variety of job programs that enable them to identify their skills and unlock potential.

Freshmen - **Planning for the Future**

- Subjects - Planning for the future and Self-understanding
- Career Camp
- Guidance Professor System

Sophomores - **Building up capabilities**

- Subject - Life and Career Search
- Career Camp
- Programs that build up students' capabilities

Juniors - **Preparing for Employment**

- On-the-job Training
- Career Development Program for Female Students
- Helping to fill out curriculum vitae and personal statements

Seniors - **Job Searches**

- Mock interview training
- Job fair and counseling
- Job Festival

Career Management System

- Student report card
- Self-diagnosis and job roadmap
- Scholarship screening and selecting participants

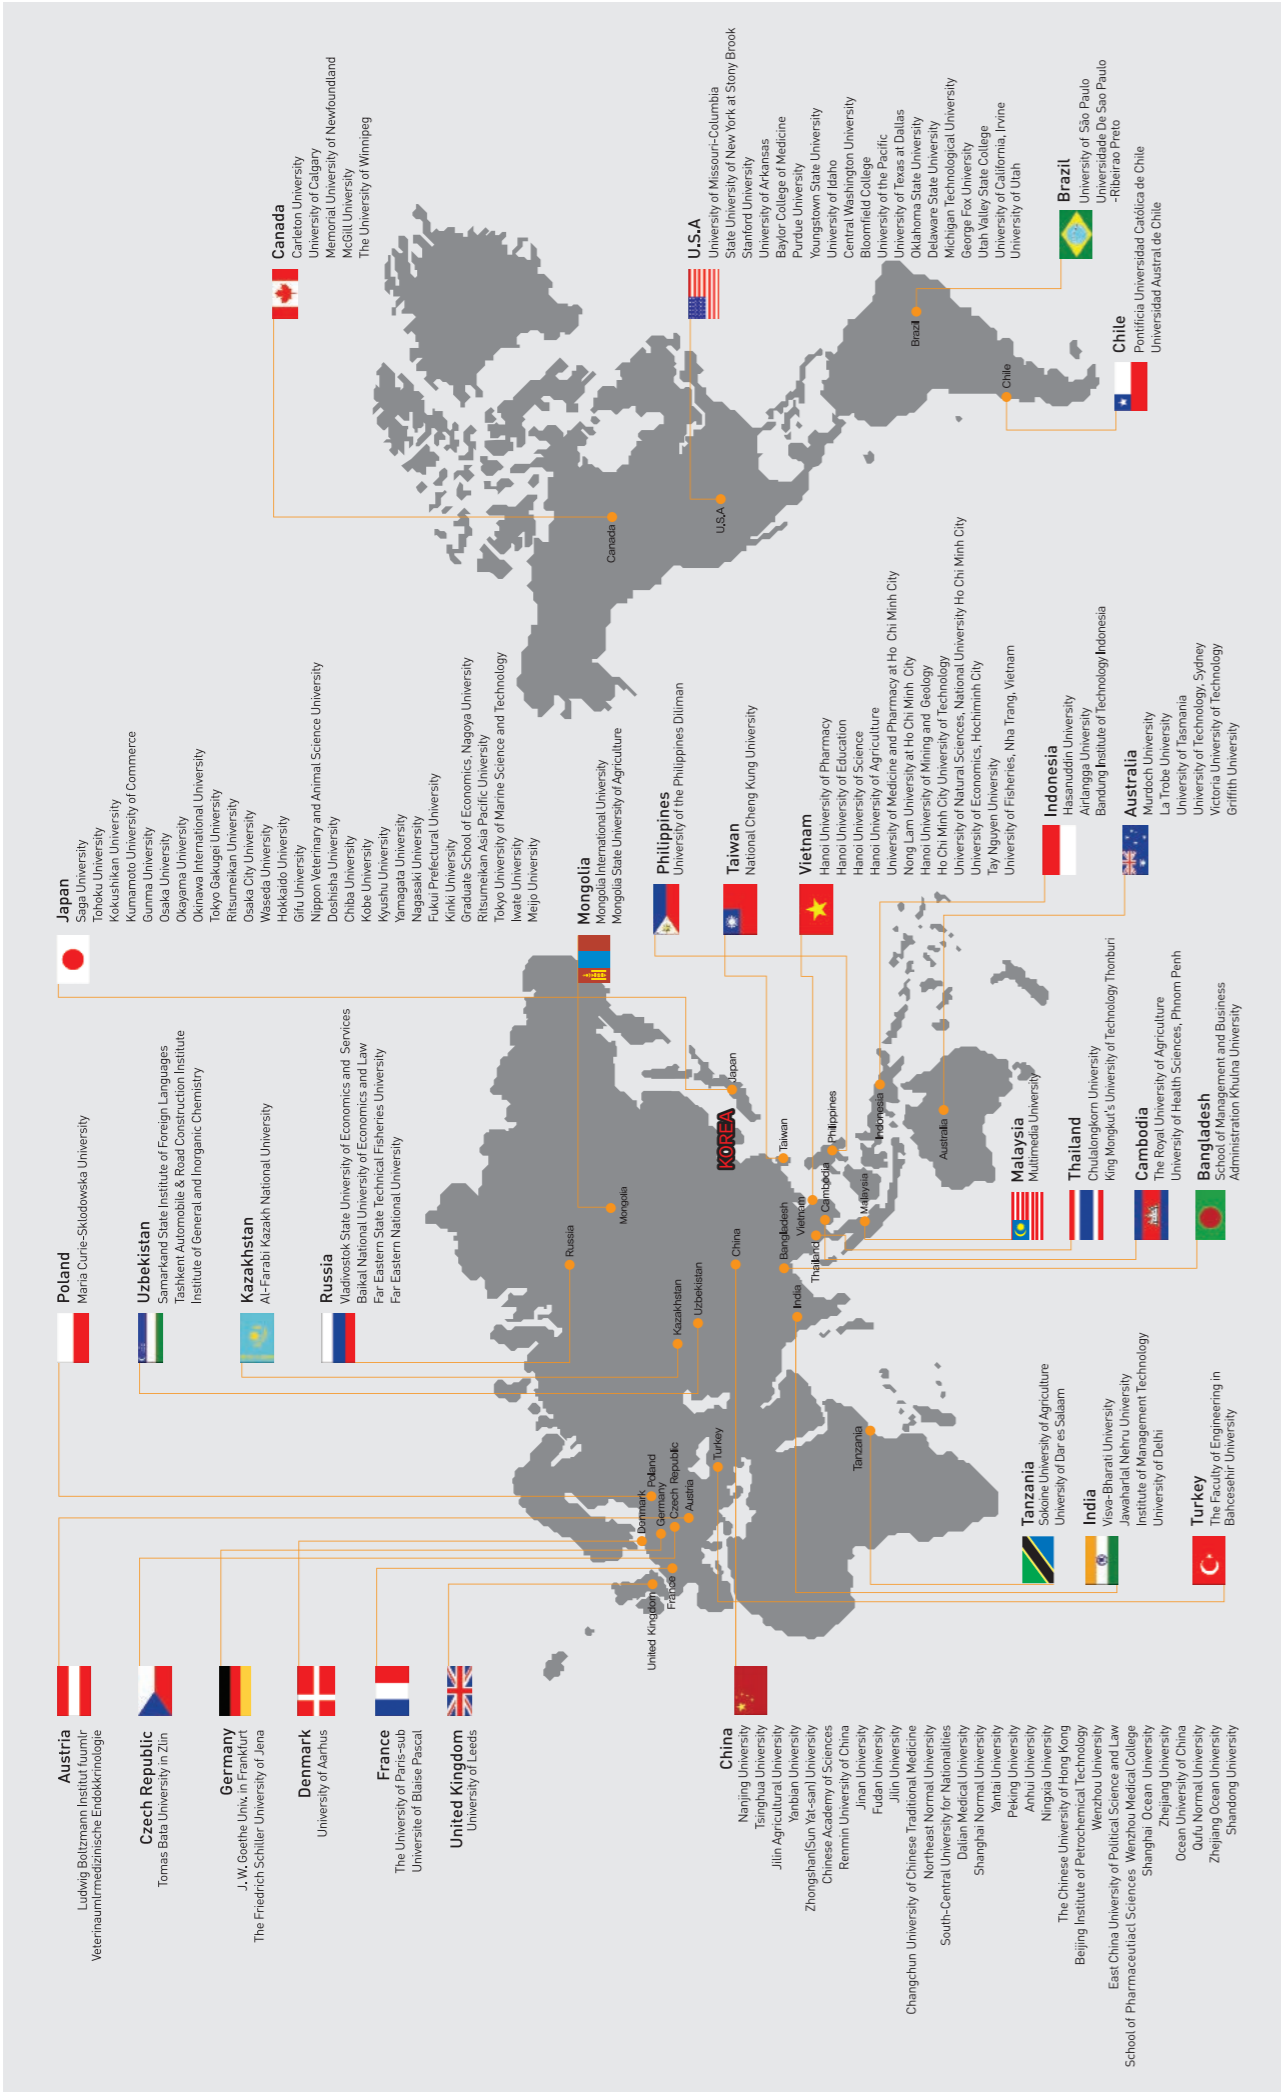

<http://capd.jnu.ac.kr>

- Manages self-improvement record
- Manages inclusive programs such as campus job center, study abroad program, scholarship program, and study communities
- Manages career roadmaps and academic roadmaps
- Provides major-based templates for career
- Provides job information in real time

International Exchange

Student exchange programs with 160 universities in 31 countries

Global Leader Program
Chonnam National University
www.chonnam.ac.kr

Global Leader Program

CNU actualizes both 'outbound' and 'inbound' globalization to foster talent that can work and communicate at an international level

You don't need to go abroad to experience foreign culture

The World Inside the CNU Campus

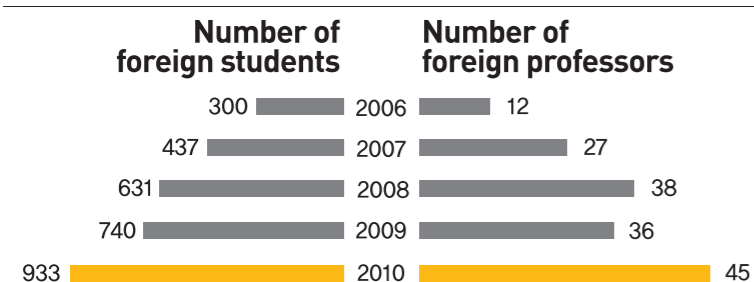

Improving foreign language skills on campus

- Level-based English Programs (Basic English, Global English, Intermediate English, Advanced English, English for Employment)
- Essay Writing, Newspaper Reading & Discussion, Media English, Art & Culture in Western Society, Professional Foreign Language Teaching

Be an internationalist with high-achievers from all over the world

- A growing number of foreign scholarship students entering master's and doctoral courses from 25 countries including Gabon, Algeria, Mongolia and Turkey
- Regular meeting of International Communication Groups consisting of an overseas student and 4-6 Korean students
- Korean language and culture classes for foreign students
- Establishing East Asia Center (EASC)

[As of October 2010]

Global Leaders with Global Minds

Gateway to the World

Each year, CNU supports 1,600 students to take part in international programs.

- Student Exchange Program: Student and faculty exchange with more than 160 universities in 31 nations
- Dual Degree Program: Students are capable of acquiring dual degree both at sister universities and CNU
- Freshmen Globalization Program: English or Chinese language and culture learning program during summer and winter vacation

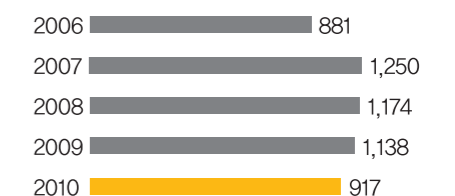

Overseas Voluntary Service

- Global Education Travel Program: Overseas experience program in which participants make their own itinerary
- Voluntary Service: Work camps such as Kibbutz or volunteer organization activities
- Internships: Internships at foreign universities, companies or civil organization

[As of February 2011]

Number of students taking part in CNU International Programs

- Cash Management Service (CMS)
Donating a certain amount of money every month during the pledged period from a designated bank
- Credit card payment or online transfer via the homepage
- ARS Call 060-701-1001 (5,000 won per a call)

Tax Benefits

- Private Donors
According to the Income Tax Law, donors to CNU are eligible to receive a **100 percent tax deduction**.
Donations to other institutions have benefits of only a 10 percent tax deduction.
- Corporate Donor
When the donation accounts for 50% of yearly earnings (after the deduction of the donation and the deficit), it is considered as a donation of entire earnings.
- Donation of Inherited Property
The entire donation will be exempt from inheritance taxes (as long as the act of donation is done within 6 months of inheritance.)

Benefits for Donors

- A donation receipt is issued for tax deduction.
- Following the amount of donation, CNU confers titles of Yongbong Fellow (100 million won and above), Mudeung Fellow (50 million won and above), Camellia Fellow (10 million won and above) and Royal Azalea Fellow (2 million won and above).
- Plaque of donors is attached to the front gate of the headquarters.
- All donors are recorded in the 'History of CNU'.
- A plaque of appreciation as well as souvenirs are awarded to donors during the appreciation ceremony.
- Depending on the amount of the donation, CNU invites donors to major events, provides them with periodicals and benefits to use university facilities (Language Education Center, Sports Center, School of Lifelong Education and Animal Hospital) and CNU Hospital and Dental Hospital.

How Development Funds Are Used

CNU designates the use of funds for scholarship projects, supporting academic exchanges, purchasing books, supporting education and research facilities, and student welfare projects; private donors designate the use of funds for special programs.

PHS

President Honor Students Program

Status from 2008 -2010

| Year | Class | Participants | Period |
|------|-------|--------------|---------------------|
| 2008 | 1 | 15 | 09. 2008 - 01. 2009 |
| 2009 | 2 | 40 | 06. 2009 - 02. 2010 |
| 2010 | 3 | 35 | 04. 2010 - 02. 2011 |
| 2011 | 4 | 56 | 04. 2011 - 02. 2012 |

What does PHS Program do?

- admits the top 1% students with strong potential
- teaches them interdisciplinary studies
- helps them develop into elite students who can represent CNU

What kind of elites does PHS develop?

- 'knowledgeable' individuals who are equipped with critical thinking and effective communication skills.
- 'creative' individuals who are able to solve problems regardless of area of study
- 'virtuous' individuals who can establish new social values through collaboration

PHS-How does it function?

- Inter-disciplinary lectures and discussions
- Volunteer services to raise community spirit
- Various hands-on experiences to inspire creativity
- Special lectures by guest speakers to link social science and the community
- Field trip around the country to experience culture and raise student competence
- Systematic and intensive English education for PHS students (120 hours in total)
- Personal portfolios to demonstrate activities in PHS program
- Certificates to all participants

Human Resource Development Program for 21st Century Knowledge-based Society

Program for Honor Students

'English Camp for Freshmen' which will prepare new students entering CNU for campus life! A counseling program to help them map their career! Practical courses for help in the job market!

60th Anniversary!
6 Billion Won!
60 Elites!
For Developing Global Leaders!

Tuition and Dormitory Fee (total/partial) Support

- **Full scholarship** : exemption of tuition and dormitory fees for 4 years
 - Humanities track – high school graduates with the minimum of 2nd level grade in Korean, a foreign language, and social studies
 - Science and engineering track – high school graduates with the minimum of 2nd level grade in math and science
- **Half scholarship**: 50 % of tuition and dormitory fee for 4 years is exempt
 - Science and engineering – high school graduates with the minimum of 3rd level grade in math and science
- ※ Beneficiaries must maintain a G.P.A. above 3.75
- ※ Those who are admitted additionally to the College of Medicine, the College of Veterinary Medicine, the College of Nursing, and the College of Education are not eligible for these scholarships.

Graduate School Benefits

- When a PHS student is accepted to a CNU graduate program or to one of the top 100 universities in the world, the tuition for the first year will be paid by the program

Studying Abroad Benefits

- A PHS student who applies to either a study abroad program, an exchange student program, or overseas internship program will be given priority in the screening process

Benefiting when looking for a job

- PHS guarantees you a job upon graduation
- Life-long career counseling from a professor
- Lectures by renowned guest speakers and mentoring programs with senior-year students
- University-Industry Collaboration Employment Support Program (LG Innotek, Samsung Electronics, Hynix, Cheil Industry, etc.)

Yongbong Elites Development Program

- In order to foster at least 60 global elites who can lead the development of the community and the country by 2012- the 60th anniversary of the university- CNU is in the midst of raising 6 billion won in scholarship funds.

HISTORY

- Feb. 2004** - Incorporation of the University Industry Liaison Office of CNU
- Apr. 2006** - Establishment of TLO (Technology Licensing Organization)
- Oct. 2006** - Research Funds: Passing the 94 million USD (100 billion KRW) mark
- Nov. 2006** - Establishment of the Kim Dae Jung Academic Award for Outstanding Achievements and Scholarly Contributions
- May 2007** - Meritorious Inventor Award for group by President of South Korea
- Nov. 2007** - Completion of Cheomdan* Campus (An industrial complex for cutting-edge technology)
- Mar. 2008** - Opening of the University Industry Liaison Office of CNU at Yeosu campus
- Aug. 2008** - Establishment of the Medical-Biological Science Industry Liaison Office
- Apr. 2009** - Structure improvement of the Division of University-Industry (office integration)
- Apr. 2009** - Launching of Research Policy Team, Technology License Management Team, Research Accounting and Inspection Team
- May 2009** - Ranking 1st among WCU Phase 2 Projects with greatest number of projects
- Jun. 2009** - Establishment of Human Resource Development Center for Light Industry-based Fusion Components and Material Industry
- Jun. 2009** - Change of the name of the Yeosu Office to University Industry Liaison Headquarters (Yeosu)
- Dec. 2009** - Winning Excellent Institute Award for Research Fund Management from Korean Ministry of Education, Science and Technology
- May 2010** - Establishment of CNU Technology Co. Ltd.

The percentage in brackets is a proportion of each partnering institute as a whole. [%]

Change of Major Research Indexes (as of April, 2011)

Operation of Program for Tailored Human Resource Development for Industries

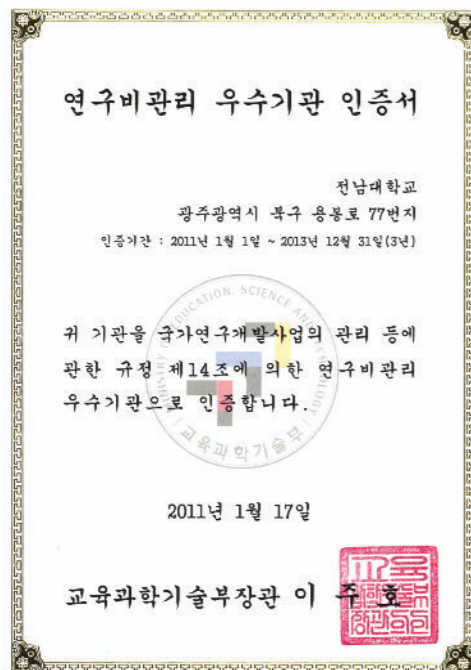

Chonnam National University has been positive in running tailored-made human resource development programs with major domestic conglomerates including Samsung Electronics from Sep. 2010.

Major Achievements

Winning the Excellent Institute Award for Research Fund Management from Korean Ministry of Education, Science and Technology

A system to recognize as an institute of excellence with management capability of research fund above a certain level

Ranking 1st among World Class University (WCU) Phase 2 Projects with the greatest number in Korea

CNU attracted six WCU projects, promoted by Ministry of Education, Science and Technology and ten world-renowned scholars are conducting joint research and education of student.

In-campus Research Promotion Program

The University Industry Liaison Office of Chonnam National University runs various research promotion programs to inspire and motivate researchers.

- #### 01 Excellent Research Outcomes Support Program

 - Research Fund Support for Excellent Researchers
 - Awarding Professors with Excellent Research Achievements
 - Support for Publication of Papers (based on SCI, IF, JCR, etc)
 - Support for Registration of Intellectual Property
 - Support of Subsidiary for Research Activities

02 Research Facilitation Support Program

 - Academic & Research Support
 - Research Year Support (6 months/1 year)
 - Support of Affiliated Research Center (Operation, Journal Publication)
 - Support for English Proofreading for SCI-level Papers
 - Support for Global Research Assistant
 - Support of Invited Prominent Researchers
 - Support of Exhibitions and Presentation in the field of Arts
 - Support of Budget for Presentation of Paper at International Symposiums
 - Support of Overseas Research of Faculty
 - Support for holding Domestic/International Academic Symposiums
 - Support of Academic Activities of non-Regular Faculty
- #### 03 Research Project Attraction Support Program

 - Support of Preliminary Research Group
 - Support of Exterior Research Project Development
